April Newsletter

The energy is shifting and changing so rapidly that if we believe that we have to keep up with it that could consume all of our time. Luckily we have “all the time there isn’t” so if we can just remember not to push everything works out well and usually faster than we might have thought.

The morning of the last Uranus/Pluto exact square, March 16, I woke up and realized that there was golden light pouring into the pineal/pituitary glands of my head. I observed as it moved down along my spinal column and then began to flow into my organs. It felt clean and it seemed to be “revivifying” everything in my body. St. Germain often talks about revivification as a part of the process of remembering. I felt a tingling sensation and I checked in on Dorian to see if the light was pouring into her. It was.

I wonder if any of you had similar experiences or felt different after the last exact square of these two major transformative planets. I have had many years of learning to pay attention to the energy of my body and I often feel things that I am sure others are experiencing, but may not notice or if they do they may dismiss the odd feelings without noting that they occurred. Our physical world is being shifted and changed daily. Nothing feels the same. I have to remind myself all of the time that Reality feels different to the energy of the Illusion. There are few reference points left in the material world to measure by. The focus must now be redirected to the inner realms. All creation starts within and manifests outward.

Two days after the Uranus/Pluto square Dorian had an unexpected hysterectomy. She had been experiencing pain for over a year. Finally, (timing is everything) she went to her doctor and said that she wanted something done. The doctor made an appointment with a GYN and the next morning she had the surgery. A happy synchronicity—my daughter was coming to see us for spring break and when I

called her to tell her about the surgery, she was already on the road to Lander. I feel that Dorian will feel like a new person as there were some things going on in the uterus that required attention. She came home from the hospital on the Solstice and is doing very well. Dorian is naturally active and the challenge will be keeping her from overdoing. Fortunately, my granddaughter Kayla has recently moved back to Lander and she will be able to help out with heavy lifting, etc. We are so blessed.

Here are some pictures of the crystal that I got in Kauai in 2013. We have been slow to get pictures as I have had the crystal almost a year, but it is so beautiful I want to share. Her name is Kialani.

There is a cauldron and a cocoon in the structure of the crystal.

There is green tourmaline in the crystal for grounding and healing.

Just as Hawaii is blessed with many rainbows, so Kialani filled with rainbows. In this picture of the crystal you can see our pegasus, Pagorus in the background.

St. Germain is continuing the “Personal Growth” package. Each month you can get the Teachings, Q & A and a one hour private session with St. Germain to develop your personal evolution in spirit. The cost will be \$120 per month with a six month commitment which is a great deal as a one hour private session is \$200 normally. Just imagine spending an hour of valuable time each month discussing anything about your growth that you wish with the Master. We have the good fortune of spending time with him regularly and it is such an up lifting experience.

Spring Intensive

Don't forget our intensive “The New World is a Master's Plan—You Are the Master”. It will be May 16-17 here at our home. We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

[Click here for the May Intensive](#)

Our group for February will be at 2 p.m. on April 5 at our home. St. Germain and Jesus will talk to us about “Let Love Show You the Way”.

We search for answers. Sometimes we get them and then doubt if what we received is correct. As we can relax and trust Love it is a magnificent guide to assist us through the maze of change that we are now encountering. St. Germain and the Master Jesus are powerfully reassuring as they speak of how Love shows us the way.

CD's can be purchased on the website at [Click Here for 2015 Groups](#)

Our Teaching with the Master for April is “Connecting to Universal Energy”. In February St. Germain talked about energy in general. This month he broadens the perspective to embrace the essence of the Cosmos. We are receiving energy downloads from the Galactic Center of our galaxy all of the time and yet we do not give that much thought. We are being opened and expanded because it is time and it is making a difference in how we live and respond to life in general. As we begin to factor in this energy in the creative aspects of our lives we can understand why and how we can bring greater, more loving possibilities into our world every day. The Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-in for the Teachings is the second Wednesday evening at 7 pm MST.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

ASTROLOGY

FULL MOON-April 4

This Full Moon in Libra is a total lunar eclipse. These highly potent New Moons indicate major forks in the road. The Full Moon in Libra puts the attention on the axis of self and others. Aries (I AM) puts the attention on the EGO self as we are being called, in these times, to integrate and unify with others. All eclipses affect our pineal gland, DNA and cellular structure catalyzing potentially life-changing insights and events. The impact of an eclipse depends on where it falls in our natal chart and aspects made to natal planets. These all affect the issues and areas of development in our lives for the next six months until the next set of eclipse occur.

This is the third of four total eclipses in a row, a lunar tetrad. Although there will be eight tetrads in the 21st century, there were none between 1582 and 1908. The last tetrad was in 2003-04 and the next will be in 2032-33. Eclipses run in nineteen year cycles and the last eclipse of Libra-Aries occurred on April 3, 1996 at 14 degrees 32 minutes Libra-Aries very close to the degree of this eclipse at 14 degrees 24 minutes Libra-Aries. Where were you in your life at that time?

Aries always calls for new experiences and the development of a strong sense of self, new courage and direction. Libra is about cooperation and compassionate objectivity. It is now calling for the discovery of interdependence in relationships. Mercury, the Sun, and Uranus all join the South Node in Aries and square Pluto stressing the importance of transmuting the shadow side of Aries: self-absorption, imprudence and aggression. Uranus and Pluto completed the seventh and last exact square on March 16 at 15 degrees Aries/Pluto. The mythic God of Chaos and the Lord of Death and Rebirth remain within 10 degrees of squaring each other until 2019. They continue to delve into the depths of the collective consciousness to bring about huge personal and global shifts of revolutionary evolution. Watch for critical insights and changes as the Sun squares Pluto exactly on April 5 and conjoints Uranus on April 6, followed by Mercury squaring Pluto on April 7 and cojoining Uranus on April 8.

On April 8 Jupiter goes direct at 13 degrees Leo ending its four month retrograde phase that began on December 8, 2014 at 23 degrees Leo. During this retrograde we have been motivated to release limited beliefs and ways of thinking about ourselves, in order to fully embody our truth. Jupiter in Leo inspires us to more creative and to share our unique gifts. If you were born with Pluto in Leo (1037-1958) and/or Uranus in Leo (1955-1962) and/or others planets in Leo you are especially primed to take a leap of faith and manifest their soul intentions now.

As we allow our dreams to unfold we embrace our divinity. We remember the connection to our ancient beginnings when we still knew who we are, truly. As the Golden Thread of the Ancient is connected to this present Quantum oriented embodiment we burst forth into the blending of the spirit with the material to bring about a New Humanity.

NEW MOON-April 18

New Moons always begin a new cycle and in Aries an initiation into a new level of consciousness. Each individual is awakening, in their own timing, from the Illusion of duality. We are facing a new frontier, we are finding expanding ability to create and manifest. Aries is the Divine Child with an open mind—ready to learn and discover, willing to examine the unknown. Children learn so much easier because they have fewer preconceptions. Like the Fool Child in the Tarot, like the movie *Avatar*, where Jake steps out into thin air to find that there is support with each footstep, we are creating a new ground of being as we go. In Aries we are learning to “sky-walk”. Live in the present. Trust your instincts. Let go of needing to know all of the answers, celebrate what has been called failure and learn from your mistakes, which are just experiments in living.

Mars, the Ruler of Aries is in Taurus at this New Moon. It instructs us to embody spirit in matter, to relate to the physical plane and ourselves in a loving, sacred manner. Taurus requires that Mars slow down and focus on quality rather than quantity, on that which lasts rather than temporary pleasure, peace rather stress. On April 17 Mars squares Jupiter in Leo at 12 degrees 43 minutes, amplifying our confidence, ingenuity and courage to move forward. On April 22 Mars makes the first of three conjunctions with Mercury (16 degrees Taurus), the other two are on May 27 at 11 degrees Gemini and on July 15 at 14 degrees Cancer. These aspects support us in the ability to say “No” to what is not in alignment with our intrinsic personal values and follow our heart.

Whenever a celestial body changes direction, its archetypal energies are amplified around the day of its station. On April 16 Pluto, the higher octave of Mars, stations to go retrograde at 15 degrees 32 minutes Capricorn. The retrograde lasts until September 24 at 12 degrees 58 minutes Capricorn and once again reaches its point of retrograde on January 15, 2016. During this retrograde Pluto brings that which is dysfunctional or deceitful into the spotlight of Revelation. Are we being conscious creators or unconscious victims? No one takes our power unless we choose to give it up. It is time to own our own integrity and trust that we are the authors (authorities) in our life. Neptune cojoins the asteroid Vesta at 9 degrees Pisces at this New Moon. Both Neptune and Vesta are associated with our spirituality: Neptune represents transpersonal dimensions of reality, while Vesta symbolizes the fire of our spirit within us and how we share that essence with others. Neptune and Vesta are in conjunction ever four years, but because

of Neptune’s long orbit (168 years), these bodies have not been together in Pisces since 1852-59. Their close square to Venus at 8 degrees Gemini inspire creativity and altruism.

The New Moon conjoins Andromeda, located at 27 degrees 59 minutes Aries. Andromeda is the nearest spiral galaxy to ours and the largest galaxy in the Local Group, which contains our Milky Way plus 44 other galaxies. Andromeda was discovered in 1612, its radio waves were first detected in 1950. Andromeda is the most distant object visible to the naked eye, approximately 2.5 million light years from Earth. Its one trillion stars are expected to merge with our Milky Way’s 200 billion stars in about two billion years, becoming one giant elliptical or disk galaxy.

This New Moon is showing us that we were created in Love. Fear is a learned process. Let us unlearn fear and prejudice and accept Love back into our hearts. We have made a long journey into separation and now it is time to remember all that we were in the beginning and blend that with all that we have become to bring about the paradise that has been promised all along. It waits within.

THE CRYSTAL CORNER

THE CRYSTAL CORNER

Healing on a Basic Level

Greetings to all of you. I hope you are enjoying the changing of the seasons. It is such a wonderful time of awakening!

We all know that the basis of any physical dis-ease in the body comes from our emotions. Our bodies reflect what we are experiencing on many different levels. That isn’t to say that we are always aware of those emotions. Sometimes, we just wake up with a sore throat or a cold or a headache. Think of those things as a wake-up call to look for the emotional upsets you might be experiencing. The stones I share

with you today will aid in the physical healing of the body but one must search out the cause.

Two of these stones are man-made but have wonderful healing energy. Please don't deprive yourself of these just because they aren't 'natural'.

Bismuth is created in Germany and is truly beautiful with its rainbow colors and geometric shapes. On its most mundane level this can actually energetically act on the body very much like an antibiotic. It goes to much greater levels and to those who are open to it this will begin to open up new levels of technology that assist in going beyond physicality.

We have discussed **Carborundum** before but it is such a wonderful creation and benefits us immensely as we use it. This also has the rainbow colors. It has an antibiotic effect much like **Peacock Ore**. As toxins are pulled from the body, antibiotics are put in to deal with infections. This stone never needs to be cleansed as it filters and collects negativity and inappropriate molecules and catches most of the toxicity so that what passes through will not contaminate the air around the body as it is cleared.

Peacock Ore also assists in removing toxins from the body. When used with **Rose Quartz**,

it acts almost as an antibiotic. In areas of intense pain, use with **Quartz** and **Malachite**. This creates a balancing of healing attention to infection that lifts and moves toxins so the body may release them more readily. This also works somewhat as a blood purifier.

Sodalite is a soft blue and white stone and is sometimes mistaken for **Lapis**. This works like a weak antibiotic. Gentler than penicillin, it needs help and support from other stones such as white **Fluorite**

or clear **Quartz**. This is so great for sore throats, the blue chakra!

All of these stones would be a great basis for a first-aid kit. Keep them handy until we can accelerate our energy to the place where we create enduring health.

Love to all of you. Enjoy your journey!

QUOTES FOR THE MONTH from St. Germain

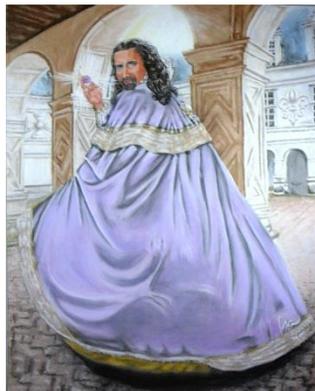

When you allow synchronicity to flow in your life you have found the connection between the material and divine realms. As you live the magik you attract others who are also living the whole life. You remember the magikian that you have always been.

Truth and Love are immortal monuments that have stood throughout all of time. They are the beacons that guide you in these times when the markers in the external world seem to blur. You carry within you your own yardstick to measure your growth and value and your own map with the blueprint of your soul's desire. You are prepared.

Everything that you see and every experience that you have belong to you. No one can take the deep understanding of experience from you. What you see may be changed by experience, but the value of your personal awareness is a gift that keeps on giving to you every day.

There is in these times the question: Is man attempting to shape nature to his own desire or is nature just imitating humans more and more? Perhaps it would be well for humanity to consider following the gentleness of nature to reunite with Reality.

ST. GERMAIN'S MESSAGE

Dearly Beloved Masters, the up spiral of energy that is taking place on the planet is calling everyone to reevaluate how you perceive yourselves. Love has been disdained, misunderstood and associated only with sexual encounters. Now it is important to realize just how it brings value to the life and up lifts the spirit. It empowers the human essence as nothing else can. It is the life force of all of nature.

The nature of Love is potentially in all aspects of life. It is the most natural thing of all. In all of the rush of technology nature has been pushed to the side. It has been considered in the way of "progress". The natural takes too much time. Speed is the need, so the mind must figure out ways to push nature and make it produce at computer speed. Anger wants rush because it is impatient. Fear drives humanity to want to get to the place where there is nothing to fear, but when you are not connected to yourself it is always fearful. Living in the future guarantees a feeling of fearfulness. **NOW IS THE ONLY SAFE PLACE THERE IS!!!**

The energy of the planets is moving all of humanity to recognize Love within. Sex and death are aspects of the planet Pluto that have been abused so that they are often looked at with fear rather than understood for the life potential in them. Uranus can create chaos, but as in the Biblical description of creation—"Out of chaos (the void), came everything". Uranus is revolutionary and Pluto is evolutionary so these two planets are inspiring massive change from the very depths of the collective consciousness.

In separation this has become a planet of warriors who believe that if war stopped all would be lost. The Heavens are sending messages with stronger and stronger impact to get people to listen within for the guidance of spirit rather than the conflict of the mind. The mind has been the director in separation. The

Soul has waited quietly for this time to come when it could begin to lead humans to remember all that they truly are—not war machines, but Divine creators of the highest order. Each month is bringing the point of recognition closer. The planets are bringing more potent energy to show that the old ways **DO NOT WORK!**

As the Illusion is passing away, many around the world are still attempting to hide behind religion as a standard for validating their actions. Anything that is less than Love is not of Spirit. Attempts to pass laws that would make hate, bullying, judgment or any action of separation will be Revealed quickly in the energies of these times. More people are looking for groups that speak of loving and live accordingly, rather than the veiled threats of descending into Hell if you do the *wrong thing* that have been a subtext of many religious in separation. There are many on the planet that are finding that what is being revealed to them within is more a vision of Heaven here on Earth rather than a decent into Hell. People are gravitating to groups who are promoting Love and unity, rather than conflict thinly veiled as love. Look around Masters and feel for yourselves. The pain of the refusal to change is like Hell right here on Earth. Some would say that is God's punishment, but I assure you, Beloved Masters—**GOD IS NOT A PUNISHER**. The Hell that people feel is mostly old patterns of separation dissolving and passing away. The place where these patterns operated can now be filled with Loving compassion and caring that flows from the well-spring of internal, eternal energy of the God force.

Living your real self, being who you truly are takes great courage and the rewards are beyond imagining. So many are still in hiding about some part of themselves that has been judged, either by them or others, until they do not feel safe to be real. Reality allows the loving of “Mr. Hyde, as well as Dr. Jekyll”. Only when society stops judging and shunning can the wounds of separation be truly healed. There is more and more mental illness emerging from the very depths of the wounded self, than ever before. It has always been there, but the ability to hide was easier in separation. Bullying, cruelty and abuse have become so accepted that people just look the other way. The defense of the right to punish has reached epic proportions. The state of affairs on the planet is fulfilling one of the primary predictions of Revelations—“When people begin to demonstrate absolute disregard for each other, when civility is set aside, it marks the latter days.”

The Plutonian nature is either or. There is the schism of beliefs that is polarizing the planet. There are those who are feeling the changes and recognizing that they feel really good within, something to pursue and expand on. There are others who are so afraid that they dare not allow themselves to feel anything. They just strike out at everything without consideration of whether it might be helpful or not. There are people who desire to bring about changes, but they want to make the changes in the same old militaristic style that the old order always used. Patience is an imperative for these times. **PEASE = EASE + FAITH**. The P in Pease is a 7, of which Faith is an aspect, in numerology. It brings the element of Faith to Ease. When you trust that things can truly be easy you find **PEASE** within and everything changes naturally.

We keep saying that being with nature is not just a walk in the park. It is connecting to the deepest, most eternal aspects of yourself within. Feel yourself, be with yourself and live who you are with integrity. Be Faithful to yourself and you will understand innately how to be Faithful to others. If you do not understand a thing within you cannot live it so that it shines into the world. Fictitiousness is being revealed. The masks of deceit are falling. Lies are being uncovered more every day. **TRUTH** is seeking to shine forth in its full brilliance and in that the unseen world of Higher Frequency will come clear.

Yes, there is change everywhere. Yes, much of it appears to be terrible. “Ain’t nothin’ what it seems”! Be willing to look beyond the Illusion and see the highest and best waiting for Revelation to bring it forward. **YOU ARE THE ONLY THING THAT YOU CAN CHANGE**. If you are using your energies to try to make others change you are using precious fuel that could be used to lift you to a place of clearer vision and higher awareness that can contribute to the New World right here and right now. You are becoming New Humans. The After Life is moving closer. It is most interesting that as the good and the beautiful get closer to the surface, the Illusion wants to cover the good with fear. The After Life is not Zombies or the walking dead. Those in the After Life are more alive, in this moment, than many on Earth are.

Each month I reassure you that we are here. We are with you right where you are, no matter where you may think that is—positive or negative. When you pray we hear. When you cry out we have compassion and when you will allow change we can assist you in overcoming the old, illusive limits. You are so loved. You are so close to mighty breakthroughs. You are

being helped all along the way. The After Life has never been able to assist in the ways that are now open. The planet is evolving. You cannot stop that process. Many are dying rather than make the changes, but you will simply be required to return and get clear with yourself if you leave now. The time is coming when there will be a blending of material and spiritual that will fulfill all that you have dreamed of. As you are willing it can occur “in the twinkling of an eye”. A simple change of heart (not of mind) can make all the difference in the world, but you cannot pretend to change because Revelation is showing everything and everyone for whom and what they are. Revelation is not the terrible stripping away of protection, but the delightful unveiling of the Divine beings of Earth.

And so, Beloved Masters, we remain true to our promise to stay with the Earth through these changing times. We are delighted about the potential for all that are here. In the greatest of Love we are with you. I remain your humble servant. I AM the Lord St. Germain.
