

## July Newsletter

Due to circumstances beyond our control the newsletter is late this month. The shifts in energy on the planet seem to affect all things electronic including our router, main computer and printers. I could not get on line for four days.

Dorian bought this beautiful glass flower at a local bakery. Tracy Dobbins a local artist, does blown glass pieces of all kinds to put in the garden or yard. This is our Kwan Yin statue in the front of our house.

My granddaughter Corinthia wrote this poem at the last Full Moon. There are poets in the lineage and it appears that Corinthia is following that line of artistry in our family.

Full Moon last night and the energy was flowing. i ponder. Did you feel my call, the full yet painfully empty echo of my voice, trailing on the wisps of the cool night breeze, beyond the whirling hum of the world, suffocating your true soul and beauty. This is the void i address, between folds of life's miseries and pleasures. Above the facts we know yet somehow gently look past, convincing inner self to deny known truths lost in fleeting moments of splendor as unique as the falling star; bright, alive with the dying fire that a heart's desire may come true. That some drop of understanding may fall from the swollen clouds of

unpredictability rippling the glass solid surface in the stillness inside me. Wake me with enlightenment of balance. Grant me patience to dance with the universe and live at peace. i allow ease to find me now.....love and light

I have found a couple of amazing products that I would like to share with you. One is the Wellness Pendant. The pendant comes in gold and silver. Each color has one pendant for grounding to give endurance, energy, focus and health and one for etheric/flow for inspiration, meditation, contemplation and intuition. The pendants are made of stainless steel with tourmaline, germanium and mixed mineral stones front and back. The pendant is out into a chamber where it is infused with frequencies which harmonize with and strengthen the biofield of the body.

When I first held the gold ground pendant I felt the most beautiful loving energy all through my body. It stayed with me even after I put the pendant down. I bought a silver flow which has a sweet gentle energy that is almost beyond words and I feel that it has a calming effect as well as increasing my creative inspiration.

Some people feel that the grounding pendant gives them so much energy that they cannot sleep. I have not used the grounding pendant much because I have a strong endurance level anyway.

You can go to the website: [www.wellnesspendant.net](http://www.wellnesspendant.net) get in touch with Linda Thomas 307 754-4396 or go to her website [www.eternal-ice.com](http://www.eternal-ice.com).

The second product is EMERGENCY daily essence moisture LOVE SYSTEM. It comes from Australain Bush Flower Essences. The essences in it are Angelsword, Crowea, Dog Rose of the Wild

Forces, Fringed Violet, Grey Spider Flower, Slender Rice Flower, Sundew and Waratah.

It makes your face feel brand new. Dorian and I have both been using it and we have noticed wonderful changes in our skin. Dorian had a couple of basal cell carcinomas and they have cleared to the point that you can hardly see them. I also had some spots that didn't look too good and they have almost disappeared. One woman who put it on her face said it made her face tingle and a couple of hours later it still felt fresh and tingly. It is great for all of your skin. It comes in a 1.7 fl.oz tube that has a pump so it comes out easily.

I would like to mention that the Teachings from May "Allowing Personal Peace", June "Life Without Pain" and the June group "The Truth of Equality" are a trilogy of instruction to making the quantum shift into living mastery instead of just talking about it. The energy of these offerings is dynamic and clear. It is to the point and goes deep into the obstacles of the Illusion to help us see exactly where we are now going. If you would like to get the Evolution Trilogy it will be on sale until the end of August for \$30.

### Personal Growth Sessions

St. Germain is continuing the "Personal Growth" package. Each month you can get the Teachings, Q & A and a one hour private session with St. Germain to develop your personal evolution in spirit. The cost will be \$120 per month with a six month commitment which is a great deal as a one hour private session is \$200 normally. Just imagine spending an hour of valuable time each month discussing anything about your growth that you wish with the Master. We have the good fortune of spending time with him regularly and it is such an uplifting experience.

### Rainbow Center News

Our November intensive will be November 13-14. The title is "Living a Masters Life Right Now!" Over

the last hundred years there has been much speculation about what Revelation might look like, feel like, where we would live, must we leave the Earth to survive? St. Germain says that it is time to stop talking about what might happen and allow yourselves to live the constantly changing, ever evolving wonder of how we were meant to live. The essence of Divine Law surrounds us and in dwells us, but each of ourselves for answers we do not realize that the key to a masterful life is in the cellular memory of each one of us. The EGO keeps asking where can I find this, how do I get it, what must I do to receive it? The answers are within and they must be lived not just thought about. The changes are big!! It takes great courage to move into them and the rewards are beyond the finite minds capability to comprehend.

Our group for July is "Inter Dimensional Travel". We have looked to the heavens, to the stars to find God and missed the fact that God is everywhere. Let us take a trip into the inner dimensions and find the truth, the real self, the space that let you feel comfortable everywhere you go. The group will be July 12 at 2 p.m., at our home. We would love to have you join us.

CD's can be purchased on the website at [Click Here for 2015 Groups](#)

Our Teaching with the Master for July is "Keeping the Power of Love". St. Germain continues to build the energy of our Mastery again in July by reminding us that our ability to Love is a sacred gift given to us by creation. For a long time we have set it aside in order to play in the Illusions, but Love never left us. It is the flame that burns on the altar of the heart/Soul. It is the light that guides our awakening and shows us by faith the next step and then the next one. As we live in personal peace and discover that life can be without pain, we are called to keep the power of our Love as our deepest treasure.

The Teaching is on the second Wednesday evening of each month at 7 pm MT. We invite you to call-in and join us. The Q&A is on the 4<sup>th</sup> Wednesday of each month. You may ask questions of the Master during this call-in.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us

to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

## ASTROLOGY

### FULL MOON-July 1-2

The Moon in Cancer is equated with the divine feminine, the essence of the Goddess. The world has so long been focused on masculine power and control and the passive feminine has stood in the shadows waiting for this time of balance to come. Cancer reflects our emotional nature and now as we connect deeper within ourselves it is the intuitive slow that protects us by making us aware of what is to come. We may not know exactly what will be, but the intuition shows us by feeling and symbology where our next step can safely be made. As the Goddess emerges to stand equal with the divine male the blending of head and intuition makes this a safer, more beautifully balanced world. Mars joins the Sun at this Full Moon calling forth the highest and best of masculine nature, to safeguard and support rather than domination or destruction that comes from the wounded male.

The Cancer archetype is nurturance and growth. The Capricorn archetype is adulthood and accepting responsibility in integrity. The mature expression of Capricorn is the discipline to achieve the goals and objectives that are important to where the personal life and life in general are moving. Pluto is conjunct the Moon in Capricorn illuminating the shadow side of Cancer and Capricorn—highlighting the importance of including self in our conscious life, caring for our own requirements as well as taking care of everyone else. We must consider more than ever that giving our power away to others is an abdication of our own authority.

Mars makes a wide angle opposition to Pluto (exact on July 15 at 14 degrees) Cancer-Capricorn. The mythic God of War and the Lord of the Underworld are closely related. Mars represents personal will; Pluto is the desire of the divine. The higher frequency of Mars is assertive, passionate and brave; Pluto at its best gives

us the courage to move through our fears, transmute the shadow self and forgive all that no longer serves our life so that we may arrive clearly aware into the places of inner connection. The Sun opposes Pluto exactly on July 6 and squares Uranus on July 12 making July a fertile time of planting new seeds for the future and weeding your inner garden of old beliefs.

Neptune at 10 degrees Pisces closely trines the Sun and sextiles the Moon, encouraging us to dare to imagine, trust our intuition and recognize that empathy must be tempered with clarity. Define personal boundaries so that you do not take on burdens that are not yours to bear. This mystical God of the Sea opens the metaphysical gates of divine wisdom, love and unity. Neptune is the exoteric ruler of Cancer, reminding us of our spiritual beginnings. Within each one there is the Aeon, the divine child of the Cosmos. Neptune and Venus, like Pluto and Mars are octaves of each other. Venus equates to personal love and Neptune embodies unconditional love and our highest ideals. Venus makes its first of three conjunctions with Jupiter (21 degrees 37 minutes Leo) just hours before the peak of Full Moon, bringing a willingness to have fun, enjoy the small things and find greater meaning to life. Because Venus goes into retrograde on July 25 it will remain in conjunction with Jupiter for the next three months (June 14 through August 17) extending our time of being in the flow of faith, joy and benevolence.

This Full Moon puts the focus on the New Human. We are being brought to new heights of spiritual evolution and we are finding that we are so much more than we have been led to believe. We are becoming a whole blended being; the physical, mental and emotional aspects are being fully embraced into the true spiritual self, the Master that we have always been. We are entering into the realms of the sacred WE where we can feel the Love and appreciation of all people rather than the pain of separation.

### NEW MOON-July 15

We are experiencing the second New Moon in a row in the sign of Cancer and its influence on home and family life is intensified. Each one of us is looking for what will give us the deep satisfaction of our soul's fulfillment. Many keep looking out into the world, trying to find the place or person that makes us feel at home. We must now remember that home is within and until we connect with ourselves we will wander

aimlessly, missing something, but not knowing what it is.

Mercury and Mars are also in Cancer and conjoin only a few hours after this New Moon. We can experience a deepening of our emotions blending with our spirit and a sense of understanding that goes far beyond what the mind alone could fathom. This is the fourth lunation in a row featuring Mars. This calls us to a larger understanding of what a spiritual warrior really is. It is not about battle in any sense of the word. Both Mercury and Mars aspect the waning square between Uranus and Pluto, reinstating the essence of what their seven squares have offered us; cementing the visions of peace, equality and a renewal of our sacred commitment to Mother Earth as her guardians. On July 15 and 18 Mercury opposes Pluto and squares Uranus and on July 15 and 25 Mars opposes Pluto and squares Uranus, making the second half of July potentially explosive, but dynamic time of revealing hidden agendas and unresolved needs. Power struggles, even those that have gone on for lifetimes, can finally be resolved now, if we will be completely honest with ourselves and others. This intensity of this New Moon can uncover and potentially bring resolution to old issues. We are assisted to get to the root of the problem and weed it out. Chiron at 21 degrees Pisces and Saturn at 29 degrees Scorpio form a grand trine in water with this New Moon, allowing us to be more forgiving, accepting and capable of transmuting fear into Love.

On July 25 Venus turns retrograde at 1 degree Virgo, stations direct on September 6 at 14 degrees Leo and again crosses 1 degree Virgo on October 9. Venus retrograde makes us aware of where, in our lives, we may be lacking or denying beauty. When Venus retrogrades once every 18 months we are urged to consider what we believe is valuable, what brings us a sense of the “good life” and to look at what is missing and why. This is an excellent time for mending a broken heart, tending to unfinished business, allowing greater creativity or more joy into your life. The retrograde phases of the planets provide us with wonderful opportunities to break old patterns and make radical shifts that we have been avoiding. The twin stars Pollux (the mortal warrior) and Castor (the divine warrior) are together in Cancer at this New Moon—Pollux at 21 degrees 19 minutes and Castor at 20 degrees 20 minutes Cancer. The alignment of these two stars with this New Moon further accentuates the current cosmic imperative to reconcile and blend the light and shadow, mental and feeling realms, masculine and feminine, spirit and physical.

The physical world has become afraid to show feelings or emotions. Tears are not a weakness and the tender heart will always feel the healing. The planets are offering constant assistance to humanity to overcome the dysfunction and distance from self that the Illusion has perpetuated. The eyes are the windows of the soul. Allow your tears to wash those windows so that you may see more clearly on every level.

### FULL MOON—July 31

The statement “once in a blue moon” dates back 400 years and originally meant a rare or dubious event. Though the Blue Moon is not an extraordinary astrological aspect (it is caused by our calendar), it has gained attention through widespread repetition. This illustrates the theme of the Leo-Aquarius Full Moon: how the power of individual intention and the force of collective consciousness combine to create planetary reality.

Leo represents personal expression and creativity. Aquarius seeks collaboration among equals. We have been so steeped in the “I” consciousness that as the Age of Aquarius dawns we still cannot accept that the sacred WE is truly the fabric of a divine collective. We are waking up from the prison of Illusion to find the freedom of the Aquarian Age. The more progress that we can make in the areas of personal peace and reclaiming our own authority and power the more we will see the changes that we have hoped and prayed for for so long. The Old Order cautions against change. It clings to what it knows based on the fears of all of the faulty beliefs we have been taught throughout the ages.

On August 1, Saturn stations at 28 degrees Scorpio, ending its yearly retrograde phase. Saturn forces us to reassess our limits and examine our boundaries, so that we can wake up from the prison of Illusion to find the freedom of the Aquarian Age. The more progress that we can make in the areas of personal peace and reclaiming our own authority and power the more we will see the changes that we have hoped and prayed for so long. The Old Order cautions against change. It clings to what it knows, based on the fears of all of the faulty beliefs we have been taught throughout the ages. Saturn in Scorpio has led us into the shadowy places of our deepest fears so that we can rise up into greater clarity. Jupiter’s square with Saturn (28 Leo-Scorpio) shows us where we must our beliefs with our goals. On August 4, Venus makes its second conjunction with Jupiter at 29 degrees Leo potentially opening our eyes and our hearts to new vision. Mercury joins Jupiter

and Venus and squares Saturn on August 6. This creates a “feet on the ground, head in the stars” feeling. Saturn semi-squares Pluto on August 13 (28 Scorpio-13 Capricorn); this supports the release of faulty beliefs and hidden fears so that we can move forward easier.

Jupiter moves into the sign of Virgo on August 11, causing the energy of this biggest planet to change from the fires of Leo to Virgo’s earthy pragmatism. Jupiter will remain in Virgo until September 9, 2016. We are being called to examine the traits of discernment, simplicity and self-transformation. The focus will be on health and the healing arts, bringing in more of the sacred and spiritual side of wellness. We will learn that humility is not humiliation, but the ability to acknowledge the value of others in proportion to our own. Jupiter last passed through Virgo from August 27, 2003 to September 24, 2004. Jupiter is about expansion and Virgo focuses on minute details. We get to see how the little things can be bigger than we thought and that nothing is unimportant in the overall scheme of things.

The Moon in Aquarius expands our emotional nature to encompass everyone and everything while the Sun in Leo opens our heart to acceptance in an inclusive way. What do you consider sacred? How can we truly live our spiritual selves? How do we embrace the whole of God’s creation? The answer will always be found in Love.

### QUOTES FOR THE MONTH from St. Germain

It takes great courage to stand for your own convictions without attempting to force others to accept them. When the energy feels like it is against “the world” it isn’t a conviction, but a rebellion. Live Love in all things.

Relationships require involvement, first with self and then with others. Relationships are like a garden that requires constant attention in order to grow and flourish. If you plant the seeds and walk away you may return to find another gardener is appreciating what you thought was not important enough to tend.

Values are changing. Each day some new standard is being revealed. Many of these standards are worthy of consideration and inclusion in the ongoing of your life. Many old standards are being revealed for the disintegrating foundations upon which they are based. As your values are what you understand yourself to be it is most wise to discover what the truth of your value is.

Love is the most powerful energy in the Universe. To keep the power of Love the focus of each thought and action is required to be centered in Love. Divine Law operates by attraction. One cannot focus on

hatred and vengeance and find Love to be the reward.

## ST. GERMAIN'S MESSAGE

All are created equal under God. God created everything, blessed it as good and then created humanity to be guardians and protectors of the precious creations. As time has passed the Illusion has lead humanity to view each other as “less or more” according to judgment rather than the truth of each being. Opinions are the realm of the EGO rather than the truth of Reality. The finite mind is being show for what it is; an information gatherer, rather than a clear seer.

There are dramatic polarities of response to the conflicts that are occurring on earth. There have been riots and destruction in the name of justice and more recently there has been a display of strength and unity by a church, a city and a state when a terrible and painful event brought the eyes of the world to look at how these people would react to the deaths of friends and loved ones. **THEY DIDN'T REACT!! THEY ACTED IN A MANNER BEFITTING MASTERS!!** They displayed a unity of purpose that will affect the future of the planet in a way that has not been shown on such a grand scale. There are more and more people who are feeling the change of heart and spiritual direction personally, but for such a large number of souls to come together in love which could include a troubled young man who does not yet realize that the only enemy is one's own faulty beliefs, is amazing. Their Love is an outstanding symbol of the shifting consciousness that will bring the whole planet to a new earth.

The more that the energy on the planet is changing and the Age of Aquarius is dawning brightly, the more people are beginning to realize that brutality is no longer going to further financial or personal gain. Cruelty and control have no place, energetically, in the

higher dimensions. Attempting to keep the Old Order operating in the third and fourth dimensions, by the antiquated standards of deception and greed, are beginning to fall apart. The calculations of the most brilliant minds on the planet cannot stop the process of evolution that has been set in motion by Revelation. This is no longer the “chess game of the EGO attempting to take over the world”. This is not even a game, but an evolution into higher frequencies that is changing humanity from the inside out.

Humanity experiences the feeling of loneliness, because of erroneous belief systems that have come from separation from self. These belief systems have generated a core level sense of worthlessness that spawns conflict in order to prove worthiness. “I am valuable because I am smarter, richer, prettier, stronger, more cunning or cruel, more intimidating than anyone else”, is totally connected to the Illusion and holds no value in the new perspective. These faulty beliefs create fear, which causes resistance, which in turn brings about pain—mental, emotional and physical. All pain is a response to resistance; fighting to get what you want, fighting to get rid of what you do not want, fighting disease, poverty, loneliness; all the battles of the world are based on the desire to belong in some way and using force to get what is wanted has simply made a chasm that seems to be insurmountable. The belief that cruelty makes one stronger is dissolving into the realization that causing pain for others is just another form of addiction that cannot be brought into the higher realms. It takes strength of spirit, great courage and a conscious desire to overcome the old ways in order to change the world (your world). The changes must be made one person at a time, again and again until the ways of separation become distant shadows of something that no longer exists.

The equality of divine design includes everyone. No one is left out. The Illusion has spent thousands of years indoctrinating the human psyche with lies of how being different is a wrong. God sees difference as the way of creation and evolution, the movement of growth; the exciting changes that have brought all of creation forward to these times. Your difference is a blessing and your ability to live as a Master here on planet Earth is a gift that is now available to you because of the courage you have shown to play the Game of Illusion. Divine Law operates all of the time, everywhere. It is for EVERYONE to access. It cannot be tapped by greed or manipulated by tyranny, but it is available to all. As you allow yourself to blend with the higher frequencies that are lifting earth into the new levels of life that empower the New World to open

within you, the Divine Laws and how they operate become totally clear. Synchronicity is a prime indicator that you are connected. You cannot control Divine Law with the finite mind so when you try to *do* synchronicity it seems to disappear. As you allow yourself to experience personal peace within that peace makes a sacred space for Divine Law to operate in every area of your life. Finding the judgments and faulty beliefs that cause fear to block your evolution, begins the journey of living without pain. Examining the truth of equality by feeling into each situation that seems to be out of balance in some way brings new awareness as to how you can be more of who you are. The equality of humanity will reveal the finer, more beautiful and deeper truths in all people and many of the old facades will drop away without the need to do something about them.

Masters enjoy the triumphs and victories of others without feeling any sense of loss. Masters recognize that as each person overcomes his or her limits the whole benefits. Masters feel the fulfillment of anyone making gains in their life, because in Mastery no matter what the accomplishment everyone receives more good. Masters do not *need* to claim someone else's accomplishment as their own because they get a sense of up liftment when anyone else is blessed. Divine Law provides **PLENTY FOR EVERYONE AND PLENTY MORE WHERE THAT CAME FROM.** The old conflicts over "not enough" simply melt away in the energy of higher consciousness. **THE REALLY GOOD NEWS IS THAT IT IS HAPPENING RIGHT HERE AND RIGHT NOW!!** There are so many who are dying because they secretly feel that they are not good enough to make the shift into higher realms. There are those who are so sure that they will be the only ones that will make the shift. The truth is rising up over the Illusion is possible for all and much easier than it has been presented to the world.

Having the absolute courage to say "NO" to cruelty and violence and make simple choices to live your life well right where you are makes the place for accelerated energy that consistently lifts you up in your own personal Love into Universal Love. You cannot get to Heaven in a battle zone, even if the war is just inside of you. We who are serving you in these times are excited and enthusiastic about the multitudes that are making the shifts. It is a quiet revolution without war. Masters do not have to shout about what they have done because the recognition of accomplishment is sweet within. Often, Masters are accused of not doing enough or not being brave enough because they do not need to kill anyone to prove they are right. The

revelation of how divine essence flows can only come from within and often that doesn't show up for the world because the world is looking for dramatic proof, rather than quiet transformation.

**FEEL THE LOVE WITHIN YOU GROWING AND ALLOW YOURSELF PEACEFUL EVOLUTION.** As you live in the energy of the light of divine change everything is revealed. Trying to find Truth in the Illusion is an exercise in futility. Relax and let the good that is yours find you. We know that the EGO mind says this is not true so we say to you, **"LIVE IT FOR YOURSELF AND PROVE IN YOUR OWN LIFE THAT PEACE BRINGS THE REWARDS THAT BELONG TO YOU IN LOVE!!"**

In the greatest of Love we are with you. I remain your most humble servant. I AM the Lord St. Germain.
