Personal Growth is an offering that St. Germain has been making for the last three years to assist humanity in the forward motion of Evolution in these times.

Amidst the confusion and chaos of the ending of an Age and the ending of a world order the Masters truly desire to be of assistance to us in Love. So many misconceptions of the Illusion are dissolving into the past that no longer serves us. We cannot continue to live by standards that were set in the energy of near Truth, but not whole Truth. People are feeling the difference within themselves and the Masters desire to support us in the Coming-up-Over the old to live the New.

Fall Intensive Our fall intensive will be November 10, 11-12. The title is “The Elements and Elementals of Magik”. The elements effect everything in life. Each person has a primary element that is the element most easily accessed in many situations. It also shows in the personality and the nature. All elements are accessible, but the primary element is a personal dynamic. The elementals—gnomes (earth), sylphs (air), undines (water) and salamanders (fire), as well as, Aether (spirit) are a natural part of life and even though most of the time humans have little or no awareness of them they still play a very important part of life in general and how the natural aspects of life function. St. Germain will talk about our elements, how to work with elementals, how to interact with aspects of nature and how to become much more attuned to how they feel, look and respond positively. We have been so long deliberately out of sync with nature, but as revelation brings us into harmony with the truly important factors of Life once more, the magik, which is the true living of Life, is reinstated, no matter what the beliefs of more recent times have mandated. Magik is only to be feared if there is the breaking of the Divine Laws that set it in motion in the beginning.

The intensive will be from 10-2 on the 10th, 10 am to 6 pm on the 11th and 10 am to 4 pm on the 12th. The cost for this three day intensive is \$350. We invite you to join us here is Lander for enlightenment, excitement and expansion, with the Master St. Germain.

CDs and mp3s will be available.

Our group for June is “Connecting with Nature is Feeling Yourself in Everything”. People speak of being in touch with nature and yet they pay very little attention to what is going on around them. Striding down a pathway with headphones on, paying more attention to how the arms are being swung or what is being said by the moderator on the iPod, than listening to the messages that the birds convey or what stories the trees, grass, rocks and water can tell, brings

no more connection to nature than standing in a crowded room refusing to make eye-contact or speak with anyone and say that there is connection with the group. The group will be on June 11 at 2 pm MT.

CD's can be purchased on the website at [Click Here for 2017 Groups](#)

Our Teaching for June is "Logic, Practicality, Science and Nature". Logic and practicality at least verbally embrace science, but often dismiss nature as something only to be exploited for financial gain. There are many scientists who are beginning to go where science was not allowed and they are finding the wonder of nature and the fact that nature is a bridge to where life on Earth must go to survive. Those who seek to destroy nature are bringing karmic balance to themselves, much quicker now as time is moving so much faster.

The Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Teachings allows you to join in to hear the teaching and then to ask questions at the Q&A on the fourth Wednesday of each month.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$15 to call in one time or \$30 for both sessions each month. Postage and handling are separate.

ASTROLOGY

SAGITTARIUS FULL MOON-June 9

The Sagittarius Full Moon can cut through our illusions and bring us into alignment with our truth. The Moon conjuncts Saturn which brings a particularly strict reality check into the ways that we have fallen out of integrity with ourselves in connection to our intuition and spiritual values. Where have we ignored our internal directive or given our power away in an attempt to be right? The Full Moon encourages us to forgive our judgments, as well as old laws and limited belief systems. The Sun's

conjunction to Ceres and precise quincunx to Pluto reinforces the necessity to release the past and grieve what was as we move forward.

The Sun and Moon square Neptune in Pisces while Saturn continues to square Chiron in Pisces. The Sagittarius Full Moon focuses on the essence of truth in both the personal and collective consciousness. The shadow side of Pisces brings tests of deception, denial and delusion. The planet is experiencing the veils of illusion being pulled aside and the heaviness of old emotions breaking apart in order for the pure light of truth to shine through for us now. It is not to allow old grudges to hold us back from new movement which brings healing and empowerment. Chiron, the wounded healer, brings the understanding that the only way to heal the wound is to blend with it and release the toxic energy that cannot be forgiven if we are avoiding or attempting to escape through addiction or distraction. We surrender the wound by connecting deeply with ourselves.

Spirit does not consider the duality of judgment-good vs. bad, right vs. wrong, us vs. them. Pisces in its higher vibrations dissolves the illusion and allows us to blend the opposites into the unified oneness of the whole. We can easily get caught up in the polarizing energies of what is happening on the planet in both our personal lives and events occurring out in the world. This Full Moon lends power to the elements of compassion, forgiveness and unconditional love, as we lower our defenses, leave our intolerance behind and open our hearts to the Piscean perspective of oneness.

The greatest fear of Revelation has been the unveiling of Truth. Sagittarius brings us both truth and freedom, which can also bring discomfort in the revealing of things that we have not wanted to look at. The grand trine of Saturn in Sagittarius, Eris, Pallas Athene, and Uranus in Aries and the North Node in Leo bring a feeling of lightening and liberation within. We are being called to see beyond limitations and find the deeper wisdom behind apparent chaos and disharmony. We are asked to have faith that as the old world implodes the new one is being born. The North Node in Leo points to the best way forward — "Follow Your Heart".

Jupiter is the ruler of Sagittarius and its presence as ruling deity of this Full Moon is extra powerful as it stations to go direct just after the Full Moon. Jupiter in Venus ruled Libra emphasizes the necessity, in relationships, for love, peace, beauty equality and truth to be honored by all concerned. As Jupiter begins its forward motion once more we are required to find our

own inner balance so that we become more equitable providers of peace and equity in the world.

Jupiter brings the positive elements of growth, expansion, evolution and positive change. Allow your inner artist to blossom. "Living well is a Sacred Art!" Be the best you that you can be.

CANCER NEW MOON-JUNE 23-24

The New Moon marks new beginnings. In the darkness of the inner self, the Goddess dreams and prepares her magik to come forth to change what was. The Sun and the Moon in Cancer unite in sacred relationship and what will be born is the beginning and renewal of the truth and understanding of what family truly is and helps us to re-anchor to our higher path and our soul's calling here and NOW. The summer solstice (June 21) marks a major turning point in the energy of the year as the New Moon opens the way for initiating new beginnings that fulfill our requirements and honor our true selves.

Moon-ruled Cancer is the sign of the Great Mother, the give of life. In the *Thema Mundi* - the symbolic "chart of the world" used in Hellenistic astrology - Cancer, not Aries is the first house sign, the sign of incarnation. Cancer is a cardinal water sign, guiding us into the realm of our feelings and deep inner place of our sacred center. In order to change the way that we manifest in our lives we must reprogram our subconscious mind which is far more powerful than the conscious mind. Subconscious programing begins in the womb and is powerfully influential in our formative years. This New Moon is conjoined with Mercury, which assists us to access and recognized messages from the subconscious mind, so that we may become aware of how we are creating from the inside out.

The New Moon opens a portal for healing as it squares Chiron in Pisces. Although the aspect is separating and out-of-sign, it is still extremely potent due to Chiron's upcoming station to retrograde on June 30. Cancer represents the safety, security and nurturing that we all desired in childhood. This New Moon square Chiron can stir up old wounds related to those memories. We may also experience feelings of insecurity that can rise up in response to the chaos in the global emotional climate. Chiron's desire is to open us up to the deep internal, spiritual connection within that allows us to recognize the consistent and

dependable safety and security that is always there inside of us. As we reconnect with the Goddess Mother, the source of life, we can remember that our inner world provides the strength that enables us to own our power and the creative resources that are always there for us.

Mars, at 12 degrees Cancer makes a wide angle conjunction to the New Moon, and its square to Jupiter at 13 degrees Libra and applying opposition to Pluto at 18 degrees Capricorn could set off violent reactions. Mars also directly opposes Juno, the partnership asteroid. There can be feelings of the necessity to set boundaries or be assertive about what we feel is important. Mars is in its fall in Cancer which can manifest the shadow side that emerges when the heart is defensive rather than receptive. This can cause emotional manipulation or other underhanded control games to emerge. We are encouraged to express what we require and stand firm on important matters without conflict.

The Mars-Pluto opposition will culminate on July 2 and the volatile nature of this aspect can cause a sense of unidentifiable intensity. Mars is also moving toward a square with Uranus that will be exact on July 17. The Martian activation of Pluto and Uranus will, more than likely, amp up the chaos and bring more, shocking and revolutionary disruptions. On the personal level the power push of the Cardinal energies can thrust us forward into new territory of life experience and away from the old stuck places where we have remained for far too long. We will be wise to remember that impulsive behavior does not bring what our desires are seeking and "acting out" is being constantly revealed as the childish action that it is. If you are feeling changes around you, take the time to examine what is really happening rather than reacting to the unknown.

The pressure of Revelation is building on the planet and it is not going to be easing off any time soon, because the necessity to make the breakthroughs that let us leave the old patterns behind, is more imperative than ever. Holding on to what was is becoming a progressively more slippery slope as everything is bound to move to deeper connections within and higher-frequency shifts in spiritual evolution.

We are challenged to stay open energetically and allow old wounds to be exposed for healing. Closing mind and/or heart at this time is simply delaying the inevitable. Change will always be a part of life, but refusing to let change inspire growth is no longer an option.

QUOTES FOR THE MONTH from St. Germain

Courage is the willingness to pursue the Unknown and the unfathomable. Courage is the willingness to be wrong in the pursuit of what's right. Cowardice is not the opposite of courage. Cowardice is shrinking from or refusing to see the truth. The opposite of courage is automatic and blind conformity. – Lazaris

As the world is changing the old ways are passing. It is not for you to fix the people or the world outside, but to allow the changes within you to emerge. The Magik assures that the changes that you make within influence the whole in subtle and wonderful ways. - St. Germain

Love is not cruel. Love does not judge. Love looks for the beauty, power and strength in all things and people. Find the Love within yourself and see the finest you that there can be. Live it! **Live it! LIVE IT! -- St. Germain**

Creative flow is the energy, the power of the Divine moving in Life. Everything is energy. What you can see, what is invisible, what you can hold and that which is just at the tips of your fingers. Everything that you require is with you now. Forgive looking outside because you do not recognize the gifts that you have. You are not overlooked or forgotten. Allow your Divine Inheritance to manifest right where you are, rather than holding it away from you in disbelief. –St. Germain

ST. GERMAIN'S MESSAGE

Remember the Ancient Truths:

First do no harm!

The Three-Fold Return—Whatever you send out returns to you magnified three X three, no matter what the intension!

Anything (ANYTHING) that you think, say or do influences the whole!

Free Will is a gift that was granted when creation began. Free Will is not the right to do anything that crosses the mind in the moment. The Free Will of Masters is the Divine Right to make your own personal choices in all situations. No matter what the choice may be, each choice invokes the Three-Fold Return. The twists and turns of the EGO Mind have manipulated thoughts and ideas with cunning and guile until many people believe that wrong is right and good is bad. Or at least that their version of good is the only right way and if others have their own ideas, thoughts or ways of being that they are bad or suspect. When there is a desire to lie to cover one's actions or deeds from others it draws in more darkness. When the choices made are for personal gain above all things and without consideration of the outcome for others it attracts the shadows of Illusion, even though they are passing away. The abuse of power, attempts to enslave others (mentally, physically or emotionally), taking from those who have less and giving it to those who already have much, abusing the sick, taking advantage

of children and the general lack of discipline that humanity is accepting as “just the way it is”; all of these things evoke the Ancient Laws that were set in place when matter became informed with spirit.

Rules have been set down throughout time and punishment administered if the rules were not followed. However, as time has passed each generation has moved further from the remembrance of why the rules were made and the punishments have often become more severe. Laws have been made to control the world’s affairs, but the laws were looked at by many as something to be broken or changed to suit the moment.

There are over seven billion people on this planet and many embrace the idea that the only way to have peace is to kill those who are disturbing that peace. Unfortunately, in this respect the Three-Fold Return often simply inserts more of the same thinking magnified again and again. Kill one and three more stand in that place with the same or even more violent concepts. The Illusion has, over time, caused more and more people to believe that destroying the enemy is the only way to stop “bad things” from happening. **THERE IS NO ENEMY!** They are all you! Each and every person on this ball, no matter how they are living their lives, are expressing a part of the whole. No one is separate from the whole really. When there is hatred or a lack of forgiveness there is a part of the one hating, or refusing to forgive that feels the pain of the hatred and the emptiness of being unforgiven. *No one gets away with breaking the Laws of Spirit. There is no place to hide in these times.* Choices made in an attitude of revenge or the desire to possess in greed or have power over others evoke the Three-Fold Return.

The Law of the Divine was made in unconditional Love, that does not rush to see others suffer to feed the EGO. When there is a need to see someone punished for their wrongs, that need awakens within the realization that all suffer when any suffer. The Illusion has created a distance within that which causes a belief that this is not true and that people have a right enjoy the pain of the “bad guys”.

War, whether it is with other countries, religions, ideologies, family, community or within self, breaks the Law of Life and the honor of all that Creation has made. The hardened heart that defends the right to punish glorifies conflict and enjoys a fight at any cost. Dearly Beloved Masters, the cost is becoming bigger, higher every time someone supports destroying others and taking precious lives. It is not for anyone, anywhere; any religion, any government to decide

whose life has worth and whose does not. The evidence of the delight in killing is blatant on the Earth.

People pray to God to stop *Them* (others, the enemy) from doing what they are doing. There is rarely any consideration that everyone is involved. The Illusion has caused powerful Masters to act like children — “I didn’t do anything. It was them.” If you stand and watch and refuse to have compassion you are a part this. If you take sides, you are a part. Follow your spirit. Feel your divine guidance. Let Love overcome injustice. Place fear into the violet flame and allow that you have help, rather than that you are alone in “the battle of life” and that will be your part. Consider carefully whether you are keeping the help away with old, outmoded beliefs that prevent you from experiencing deeper love, broader vision and the wisdom that waits for you to connect with all that you are. Loneliness is not a virtue.

The EGO whispers, “Just this once, it is all right to do something cruel. Just this once you can tell a “little white lie”. Just this once it is right to fight back to make them see your point”. **Pay very close attention to how these actions make you feel within. It is a great wisdom to REFUSE to dismiss those inner warnings as nothing.**

You have the power within you to change your life NOW! Saying that others are stopping you, is just giving important personal power away to people who cannot use your power, while you cannot live without it. You do not change your life by rebelling against others. That is a power give away. Your life is the one thing that you can change. Everything or everyone else is not yours to control. **HOW MUCH OF YOUR PRECIOUS ENERGY ARE YOU GIVING AWAY TO OTHERS IN JUDGMENT, CONTROL OR VICTIMIZATION?** Do you feel tired much of the time? The New Order requires a very different use of energy. Forcing your body, mind or emotions to work extra hard does nothing to improve life, because force requires ten times as much personal power as allowing your dreams and desires to evolve gently. The EGO says, “Allowing takes too long.” When you work so hard that you are too exhausted or low energy to enjoy what you have created; when allowing might take a day longer, but you will have the strength to appreciate the outcome, which is preferable? Even thinking takes more fuel than it has in the past because it is operating under old, outmoded laws.

Each being has a soul seed or kernel that lies in the solar plexus. This soul seed is connected to the central

nervous system and also to the essence of the Divine. This is the generator of Life Essence within each being in all places where life or the potential of life exists. It is, if you will, divine technology. In the awakening, this soul seed is becoming much more active because the body, mind and emotions are being reactivated to the connection with spirit as a whole being.

When the ways of separation are being flaunted before the world as they are now, it is for each and every one to be much more aware of the emotions of confusion within. Confusion can draw you away, mentally or emotionally, from the current situation or daily affairs. Distraction is a ploy of the EGO mind. In many of the global affairs there is enough information to have a sense that things are not as they appear, but not enough to let the situation be clear or well defined; very much like the magician that says, “Watch this hand, but don’t attempt to see what is really going on”. When there is extreme confusion it leads to low energy and feelings of disorientation. This requires renewed focus and concentration rather than the tendency to just let everything “blur out”.

The positive outcomes of these times will be achieved by patience, a calm approach to life and a willingness to stand clearly with yourself rather than “taking a stand” which most often leads to conflict. Fighting is a bit like wanting to see the bottom of the river through clear water, so everyone stirs the waters as much as possible and then complains that someone else muddied the water. Finger pointing and fault finding are distractions and nothing positive can come from the distorted images of anger and/or confusion that are being held up in so many places. **NOTHING IS AS IT SEEMS**, so relying on how things look or what you are told, alone, can be most misleading.

When we say, “Feel into yourself” you may first feel fear, doubt or disbelief. Allow yourself to move deeper into the pool that is defended by emotional reaction and below the surface chaos you will find the still waters of spiritual peace and comfort that are always available, no matter how unsteady the world seems. In that quiet space within, you can find the answers that the world simply does not possess. Truth awaits within. The world presents a kaleidoscope of mirrors seen beyond the smoke and shadows of Illusion. For lifetimes humanity has been warned away from the very things that can support and sustain personal worth, even through difficulty. Many people are grappling with a sense of worthlessness, low self-esteem, and the fear that they are not doing enough. Each person is immensely valuable in their own special way. Take the time to honor your

accomplishments, no matter how small they may seem. Praise yourself. The EGO will praise, but it feels as though it is over-done or that the eyes of the person are looking around to see if anyone agrees or is even paying attention. When the praise you offer yourself is honest it has healing qualities and provides a sense of support. **THE ORDER OF DOING IS DYING!** The energy of doing can be draining because it requires two or three times the effort that that allowing does and accomplishes less in the same amount of time. Doing can easily turn into a battle to achieve more than others when accomplishment is not a contest of one-ups-man-ship, but validation of personal success.

When you consider that threats and fear weaken the fabric of the whole, while kindness and compassion heal, mend and strengthen the All-ness, it is well to attune the actions and thoughts to positive, powerful outcomes.

Each Master holds the ability to come up over the old ways. Waiting for someone else to energize things for you is an exercise in futility. What changes your world is the realization that Life is more important than just “lip service”. You support Life by living it well.

So Dearly Beloved Masters, your strength, willingness, personal commitment and growth in spirit will change the world NOW. Your ability to accept that you are the only one who can change you, can make all the difference in the world within you and what you discover about you within has a dramatic influence on the whole. In Love, We are always with you. I remain your most humble Servant. I AM the Lord St. Germain
