September Newsletter

Our thoughts and prayers go out to the people of Houston and the whole Gulf coast. The amazing amount of assistance and loving volunteers has been heart-warming. The contrasts that occurring everywhere are offering opportunities for us to make choices in our lives that heal us and help the planet in these times of shift.

We are doing a ritual for the cleansing of the waters on the Gulf and all over the Earth, as well as the emotions that are so challenging for all concerned everywhere.

CD's and mp3s of our Eclipse Ritual are available. Just let us know and we will send a copy. Love, Molly

NOTICE: Many people have been calling and/or commenting on feeling strange—tired, dizzy, pressure, as in heaviness in the body or as though they are carrying a burden of some sort.

St. Germain says, that beginning with the New Moon on the 22nd of July at 0 degrees 44 minutes Leo, followed the next day with Sirius Rising, which is considered by many to be the most powerful day of the year, the Earth will be experiencing the evolutionary shifts of moving fully into the Age of Aquarius. The cusp between the Age of Pisces and the Age of Aquarius began in the early 1930's. The sixty days between July 22-23 and September 23rd when Sirius sets mark an influx of energy that brings deep internal changes of heart to empower a flow of compassion and heart-felt Love that the Earth has not known since Ancient times. The physical pain that many are experiencing is simply an indication of the EGO's resistance to these changes that are Cosmic and Universal. The energies do not go against Free

Will, but seek to reestablish humanities ability to overcome the psychological repression that has held many of the Earth's inhabitants in a fear that keeps them from owning who they are, totally, and living a life that they were created to live.

This evolutionary process comes after only seventeen years in the energy of the new millennium. As humanity moved into the 21st century the old order began to break apart in order to make room for the essence of Revelation to change how civilization functions from the inside out.

These changes are a part of the necessary shifts that can bring new levels of awareness and understanding to all of the Earth's people and raise the frequency on Earth so that hearts and minds are drawn to unity, harmony and interdependence, rather than the division that has formed in recent times, created by the EGO mind.

On September 6, I will be 75 years young. Coming to the ¾ century mark is a major mile stone. I am healthier, happier and more prosperous, in every way, than ever. I feel so involved with the energy of the planet and the magik is alive and well here where we are.

Dorian is involved in several projects to improve the buildings that we have in downtown Lander. One that we are really excited about is the creation of MERLIN'S MAGIK STUDIO AND ART GALLERY in the Rainbow Center building. There will be work rooms available and a gallery for displaying the work of local artists. Lander is an art community and we are pleased to be a part of it.

There is a new craft and yarn store opening on September 15th in the building that we call "The Pot of Gold".

The Lander Dance Academy will open for the fall season on September 1st in the Rainbow Annex.

As I embark on the next phase of the adventure called LIFE I hold powerful, joyful intensions for each and every one. My highest choice is that in the midst of the chaos on this Earth (within and without) All will discover, within themselves, the strength, faith and courage to come up over the tests that are happening everywhere.

ARE YOU LOOKING FOR SOMETHING, BUT YOU ARE NOT SURE WHAT IT IS? ARE YOU EXPERIENCING STRANGE SENSATIONS MENTALLY, PHYSICALLY AND/OR EMOTIONALLY? IT IS TIME TO COME HOME TO YOURSELF! The answers that you seek are within. Unlock the wonder of your true self with the Love and assistance of the Master st. Germain.

As the frequency of the planet is shifting, humanity is experiencing many different responses to these changes. One thing for sure is that, fighting the changes to stop them or control them simply makes everything much more difficult. The time/space continuum is changing and the inner personal responses can be disturbing if you are unaware of what is happening.

The Master St. Germain offers advice, encouragement, enlightenment and support through the Personal Growth package. Each month there is a private one hour session with St. Germain, plus CDs or mp3s of the monthly Teaching and the Q&A. The Teaching is based on a yearly theme and the Q&A is an opportunity to join in and ask questions about your own personal growth experiences. All of this for an amazingly affordable \$120 per month. St. Germain requests that there be a six month commitment, not to him or me, but to yourself so that you have time to discover new, unrealized aspects of your inner self unfolding.

Fall Intensive Our fall intensive will be November 10, 11-12. The title is “The Elements and Elementals of Magik”. The elements effect everything in life. Each person has a primary element that is the element most easily accessed in many situations. It also shows in the personality and the nature. All elements are accessible, but the primary element is a personal dynamic. The elementals—gnomes (earth), sylphs (air), undines (water) and salamanders (fire), as well as, Aether (spirit) are a natural part of life and even though most of the time humans have little or no awareness of them they still play a very important part of life in general and how the natural aspects of life function. St. Germain will talk about our elements, how to work with elementals, how to interact with aspects of nature and how to become much more attuned to how they feel, look and respond positively. We have been so long deliberately out of sync with nature, but as revelation brings us into harmony with the truly important factors of Life once more, the magik, which is the true living of Life, is reinstated, no matter what

the beliefs of more recent times have mandated. Magik is only to be feared if there is the breaking of the Divine Laws that set it in motion in the beginning. The intensive will be from 10-2 on the 10th, 10 am to 6 pm on the 11th and 10 am to 4 pm on the 12th. The cost for this three-day intensive is \$350. We invite you to join us here is Lander for enlightenment, excitement and expansion, with the Master St. Germain.

We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

Our September group is “The Challenge of Changing Self”. The programming of our psychology on Earth is that we are here to change others. If we can just get them to see things our way then life would be good. The EGO always wants things to be fully ours to control; “If I have all of the money I want”, “If I can just convince others that my way is the best”, “If I could rule the world”. The challenge is that life is never static and never will be because the moment that life stops moving death sets in. When there is a willingness to allow changes within self, life begins to flow. The more change within the more self-awareness. The more clearly the knowing of self is evident the more powerful, joyful, peaceful and prosperous life becomes. It is about changing the focus away from what they need to do, to how can I create differently. The group will be September 17th at 2 p.m.

Our Teaching for September is The Element EARTH. The element of earth provides grounding and foundations in our lives. In a spell, calling earth is drawing energy of protection and power through the earth element. Earth strengthens the physical body, affairs that are connected to physical life and healing and strengthening our earthly endeavors.

The Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-in for the Teachings allows you to join in to hear the teaching and the Q&A allows you to ask questions.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

We went to Sinks Canyon Park on July 23rd, Sirius rising. On up into Shoshoni National Forest are the rock formations that we call the Visionary (above) and the Prophet (below). The Visionary watches over the valley, while the Prophet appears to be speaking words of truth and encouragement. The energy near this formation is amazing.

PISCES FULL MOON-September 6

This Pisces Full Moon puts emphasis on our mystical, emotional nature. With the changes these times are bringing we may feel much more in touch with the pain and suffering of the world to turn our attention to the compassionate part of our nature. When others suffer it is neither to turn our backs or take on what they are experiencing, but to recognize that in all things of our life we have a choice. The New Moon in Leo in July opened an internal gateway in each and every human that can bring us home to the feeling nature and connection to the Divine within us.

To amplify the power of this Pisces Full Moon the Moon is in conjunction with Neptune, the modern ruler of Pisces. The Pisces solar eclipse on February 26, 2017 was also conjoined with Neptune, creating a seed-planting time for dreams or visions that may now come to fruition. Neptune in Pisces (2011-2025) gives the collective an opportunity to heal the shadows and Illusions of the passing of the Piscean Age: victimization, addiction, powerlessness, delusion and denial. The root, these Piscean shadows stem from the belief that we are separate and that there is an "other" to victimize us. There is no necessity to escape or run away if we acknowledge that at the deepest levels of self we are one with everything and everyone around us.

This Full Moon serves as an activator of the necessity for the collective to participate in transcending the old paradigms. Spirit can bring us deeper insights and feeling of connectiveness as we move toward unity and remembering that we are all part of the Oneness. Healing from the wounds of separation occurs at the emotional/feeling level and we are required to allow the experience of those feelings without judgement. When we accept the opening of our heart to the flow of spiritual energy, there is a softening that changes how we experience life. The intrinsic nature of connectiveness to all helps us to remember that when we are guided by the higher consciousness rather than the finite mind, we achieve an opening to the wisdom of the ages that has always abided within us.

Jupiter, the traditional ruler of Pisces, is in Libra, the sign of relationship. From the perspective of the Piscean oneness, every person in our life is a reflection of us, that shows us our highest potential and darkest of shadows. Jupiter is in tight opposition to Eris, the rejected Goddess of Discord. At this time we find that

what others are reflecting to us are the parts of ourselves that we have rejected as unacceptable. The Pisces Full Moon brings the love of the Goddess; that we can embrace all of self in order own forgiveness, compassion, acceptance and unconditional love. By taking into ourselves the beauty of wholeness we then can share those aspects with all.

Jupiter has returned to the degree of its retrograde station on February 5-6, and is again conjunct Spica, a beneficial fixed star in the Virgo constellation. Spica represents gifts and talents, and specifically gifts given by the Goddess (Virgo) to humanity. The promises and opportunities -- especially, the Libran areas of relationship -- that began at Jupiter's retrograde station are now ready to manifest and the energy of this Full Moon can bring them into being. The elements of justice, equality and peace can gain a place of honor and respect in the movement of the planets and their effects on the collective whole.

The necessity to channel our sensitivity into positive directions is assisted by the grand trine created by the Virgo Sun trine Pallas Athene in Taurus and Pluto in Capricorn. This trine also brings a grounding influence that is vital in the midst of the deluge. The swirl of Piscean emotions can cause a sense of being pulled away from all that we have known. Spending time in nature, getting your hands and/or feet into the earth can get you back on track and in touch with your center. Mars, the Sun and Vesta in Virgo point to the power of taking small steps forward into the new becoming at this time. Rushing into the unknown can simply add to the sense disconnect.

Mercury, ruler of Virgo, stations direct just before this Full Moon, ending its three-week retrograde. It stations in the same degree as last month's solar eclipse (28 degrees Leo), offering us clearer insights into how to move forward on our eclipse intensions. Deeper truths are revealed at Mercury's station as we are lead to connect to our inner awareness more fully. Mercury cojoins with Mars at 0 degrees Virgo to reactivate Regulus, which was strong at the Leo solar eclipse. Mercury—Mars conjunct Regulus magnifies the power of the sovereign, liberated (trine Uranus) self to implement the creative and effective action in service to collective healing.

VIRGO NEW MOON-September 19-20

The New Moon in Virgo provides grounding after all of the high energy influx over the last two months. We are called to move our energy back into our body and experience the new sense of growth and expansion that has occurred. It is time to focus on the here-and-now and get accustomed to living in the moment rather than out in the unknown future. Virgo is the Goddess, the Priestess of the holy temple of our body. Our ability to respond rather than react to the dramatic events going on in our world depends on mental, emotional, physical and spiritual health. Discernment is a gift that Virgo brings, so take the time to feel into your life and discover what nourishes you and what is toxic, therefore requiring to be released. If you desire to be of service to others, then it is imperative that you care for yourself first. Clear the chaos from your own life in order to see clearly what is required to assist others.

The New Moon opposes Chiron in Pisces, increasing our sensitivity to the suffering of the collective and activating the Spiritual Warrior and Wounded Healer in all of us. We cannot heal by war and that has been and still is the greatest wound of all. Fighting for health—mental, emotional or physical—simply delays the positive outcome desired. Where we feel the most inadequate and broken can well be the place where we discover how we can best serve others. Our wound becomes a gift to further the healing of the whole. The Shadow Virgo prevents us from sharing our gifts, because perfectionism blocks our ability to share with others. Exalted Virgo calls us to live where we are, share what we have and begin now. If we keep waiting to have everything “right” we will never accomplish what we are here for.

Saturn in Sagittarius squares the opposition between Chiron and the New Moon, forming a mutable t-square and adding increasing the necessity to allow healing and service to others to be high on our list of accomplishments. Saturn is the principle of necessity, and the square to Chiron in Pisces (exact on November 2) is the third and last square to motivate us to come out of denial and turn toward the things that we are afraid to see in ourselves and in the world. The Saturn-Chiron square can make it apparent that it is actually more painful to live in Illusion than to face reality. As we can open our hearts and forgive avoiding the pain we did not want to deal with, we can discover gifts and talents that we did not even know we possessed.

This Saturn-Chiron square can put us in touch with the wounds that we feel helpless to heal, those that we

continue to work on, but never seem to change. Rather than blaming ourselves for inadequacy, it is time to wash ourselves in the Piscean Love without condition. There are some wounds that may never, totally go away, but as we move beyond them, our experience becomes a wonderful teacher.

Mercury in Virgo is exalted in its own sign and, as it emerges from its retrograde it makes an exact opposition to Neptune in Pisces. Mercury-Neptune can cause us to become distracted and get lost in the shadows of Illusion. However, on the positive side they inspire our intuition and help us to see the over view instead of getting caught in tunnel vision. The Virgo-Pisces axis can create a sense of victimization in the face of all that is occurring on the planet. It is to remember that no one is alone. The mind can suggest that there is no help and no way out, but our higher consciousness is always available to show us things that we feared to see or accept. The more we live who we truly are the more we find we have to offer.

Mercury and Mars in Virgo form an earthy grand trine with Pluto in Capricorn and Pallas Athene in Taurus, an activation that can assist us to capture our dreams and visions and put them into physical application in our lives. As we share what we are finding we have, as we give and realize that in the giving we are constantly fulfilled, as we take small steps toward healing we consistently increase our own sense of empowerment and faith, so that we can move toward the future with joyful anticipation.

AUTUMNAL EQUINOX-September 22

Between the New Moon Sirius setting the Autumnal Equinox occurs on September 22nd. This is when the Sun moves into the sign of Libra and the fast paced energy of summer begins to shift to coming back to the routine of the cooler months in the Northern Hemisphere.

This chart has a 25 degree, Capricorn Ascendant with Saturn, the ruler of Capricorn at 21degrees 42 minutes Sagittarius conjoining Donald Trump's Moon and opposing his Sun in Gemini. This can create further limitations to the campaign that Mr. Trump waging to achieve his political promises. The three planets in Virgo and the Sun in Libra in the 8th house, much attention is focused on health care, tax reforms and job creation.

Moon-Jupiter in the 9th house of this chart with Jupiter opposing Uranus and quincunxing Chiron, points to surprising diplomatic developments and the possibility of some positive events overseas. At home communication networks and transportation can see disruption over the next three months.

The rising degree of 25 Capricorn is close to the Pluto in the U. S. Founding chart 1776. During this season, we will see aspects of the best and the worst of Pluto as it influences Washington, D.C.

SIRIUS SETTING-September 23

On September 23, Sirius, the dog star sets in our sky. This ends the so called “Dog Days of Summer”. This year it also, indicates the easing of the immense download from the Galactic Center that began on the 22nd of August with the first New Moon in Leo at 0 degrees 44 minutes. Sirius setting does not end the energy flow but brings a plateau, a time to integrate what has happened and to feel into ourselves to find how we have changed in the midst of such dramatic shifts that there has been virtually no time to take an assessment of all of the changes. The last two months have been a time of the most powerful shifts of consciousness the Earth has experienced. Where will it go? The eclipse on the 21st of August, lasted 2 hours and 47 minutes from beginning to end. That equals a segment of influence that will last until the spring of 2020. All of humanity is affected. How that will look, feel or play out is as uniquely personal as a fingerprint. The power is yours, use it wisely.

ST. GERMAIN'S MESSAGE

Dearly Beloved Masters, for life times of Illusion there has been a subtle shift in the awareness to bring humanity to a place where science is revered more than spirit, logic is trusted more than the deep eternal Truth of creation and the mind focuses out into the world bring confused by all that it sees there. These times are restoring a sense of clarity and consciousness that has not existed in so long that the logical minds actually fear the Truth that can set each Master on this ball free from the depressing beliefs that what you see is all that there is, what you hear is true and you must habitually fight to survive the “evil” that you don’t understand. Change is being brought about on the deepest levels of human awareness. These changes cannot be stopped by aggressive avoidance of self-

understanding. There are several billion people on this earth and each one is a precious creation of the Divine. Each is loved without condition and now is the time when the heavens are activating internal shifts to bring about an awareness in the collective consciousness that all are valuable and all are one. Separation has caused the divisions of thoughts ideas, beliefs, ideologies and a complexity of divisive concerns that seem to be increasing as they are brought into the light of consciousness. The total solar eclipse that occurred on August 21 brought a download of new information and awareness to everyone on the planet, whether they saw the eclipse or not, whether they even cared that there was an eclipse or not, the power of internal shifts that has been growing and expanding since the entrance into this millennium was activated to even greater intensity so that the whole collective would begin to feel a difference within. Rather than taking away free will, this download assists all to remember what it feels like to live the Truth of yourself rather than hiding or avoiding parts of yourself as unacceptable, which causes anger, fear and self-judgment that fuels the fires of conflict, within and without.

There has developed an emotional reactivation to everything that seems to indicate change, so that people are hyper-sensitive and over-reactionary. The collective response to the evolutionary shifts is to try and fight off the new and different ways of being that the Aquarian Age is presenting. It is vital to forgive judgments and allow a clear perspective in order to see what is emerging from the depths of self. This is not an invasion of alien consciousness or beings. These changes are simply removing the veils of Illusion that have been in place for so long that the finite mind would advise that there is no truth in the changes, yet they keep rising up from within.

Everywhere on the planet symbols of the old order are falling. Sacred shrines, historical monuments, tributes to separation in all forms are literally being pulled down and broken apart, some by human hands and many by natural causes. The desire to preserve the old ways cannot stand in the face of the essence of the New Order energetically moving into place. The finite mind feels a pang of fear and asks, "What is this New Order?" The paranoia and suspicion of the mind assumes that the New Order is some "new-fangled" way of taking control by some underground group that wants to tell everyone what to do and how to live the way they say, again one more time. The Aquarian Age is not another mind game of science, religion or political device. The planet has functioned under the weight of one group struggling to usurp another for as

long as memory or longer. Separation for survival has been supported and empowered until suddenly the earth is embroiled in conflict everywhere. There are so many different ideas, opinions, theories and beliefs to "divide and delude" by suggesting that each one is the only one that will truly make you safe. Insurance takes money just like Las Vegas, because the insurance companies are gambling that you will not get sick or die and you are gabbling that you will. What a sad game, because the only way that you can "win" is to lose. The Illusion that an appearance means protection is proving to be doubtful as more and more people are pretending to desire the highest good of all while harboring old wounds of hatred because they feel rejected by those that they are bound to serve or protect. The mind asks, as it has for life times, "What can I do about this?" Appearances are not altogether trustworthy. The eyes see what they want to see and filter the whole picture to only reveal what is considered acceptable. The Illusion has taught that there are certain things that can be taken for granted, however the world is changing. The mind makes decisions based on judgment, while the spirit calls for internal awareness that feels into each person and situation and assesses by recognition beyond the finite senses alone. Spirit is not driven by fear and self-preservation alone, but leads into clarity that operates on the virtue of the highest good for all. Spirit does not act on the premise of "shoot first and ask questions later", which causes a tremendous amount of pain.

First of all, get still within yourself and pay attention to the God given gift of intuition. Trust your feelings, not your reactions. Divine Law never gives a directive of destruction. Over time the EGO Mind has put words into the mouth of God that a Sacred Deity would never suggest. As you take time to find the truth of yourself in the stillness within, you will also discover that there is a strength that has nothing to do with "power over" and a recognition of what unity and oneness really feel like. You will begin to sense the depth of connection within, rather than some ideal or concept that is like watching a life that you are not involved in.

The logical mind has given a list of rules to live by. When felt into, these rules are all about slowly dividing people from one another. Some of them may have even applied to life as it was lived, at some point in time along life's long timeline. Now, in these times, the impatience of the EGO driven fear and anger just continues to suggest, "If you do not know who they are, what they want or that they are just like you, then just kill them".

Beloved Masters, The Divine does not set the children against each other. The idea that God loves some better than others because they do what He wants is divisive. The finite mind cannot comprehend a Love so vast that it can Love all equally. That is where the New Order is leading humanity to consider that each one was created in that Love and that it has always existed within. The hurt, rejection and loneliness of separation has driven many beings to desire retribution and revenge – “If I suffer, then they must suffer, also”. That is not God’s will, but the small mind of fear and doubt.

Ennobling death suggests that the wonderful life that was granted to each being in creation is a lie. When there is a disbelief that life can be good it causes the energy of creation to follow the path of those limiting thoughts and therefore, to appear that *there is nothing better to be found* or that *the good things only belong to others*.

The emotional reaction of the social consciousness is an entitlement to be as cruel, hostile or judgmental as the EGO can possibly come up with. Even the Puritan laws of shaming are being dredged up from old, decaying places as the Old Order is passing away. The Three-Fold Law of kindness, compassion and loving regard for one another is returning, but the change must come from within. Love cannot be voted on and made a law. The EGO is cunning so it will pretend to follow the law while it laughs and disdains the idea of Love as a Fool’s Game. No one wants to feel rejected or excluded, but the auric field that is created by bitterness, avoidance and superiority simply attracts the very energies that it wants to eliminate from the life. If there is hate in your life, what is the hatred? Rather than holding on to old concepts without a conscious awareness of why there is hatred, go within self and seek to discover from whence the painful emotions come. The order of separation has justified punishment, retribution and revenge without a thought to the repercussions karmically for the attempt to destroy the precious life that the Divine has created.

Your life is precious!! However, debasing the lives of others does not make your life more precious. Attempting to *prove* to others that you are better than someone else, becomes more revealing all of the time. Condemnation does not uplift or make anyone better than all of the rest. The Illusion of superiority emphasizes the emotions of inferiority and causes the pain of exclusion and rejection to burn in the solar plexus where the conformation of the true self is waiting to be discovered. Hatred is the EGO’s way of blinding humanity to their own Mastery. Wherever the

focus of one’s thoughts is that is what is found in the world outside of self. Logic can deny it, but seeking to destroy the character, reputation or image of another rebounds on self like a boomerang. EGO uses “good and bad” as definitions of value. Beloved Masters, behind the veils Illusion every single soul on this earth is valuable, worthy and held in high regard by all of us who are seeking to assist humanity to remember who you are. Logic wants to argue about flaws that exist, as though some of humanity has no flaws and can judge the others righteously. Ego is using all of its cunning and guile to create divisions and certainly putting others down is not only painful for the person who is being denigrated, but for the perpetrator also. Even though some may believe that they are above being touched by the disempowering energy that they are spewing out into the collective consciousness, corruption of the Illusion is bringing greater revelation every moment of every day.

To be willing to delve deeper into self, going beyond the confusion of the logical, practical mind that denies the existence of Magik and the wonder of feeling one’s own spirit in pure, loving support from the internal realms of self, and experience the peaceful, restful, fulfilling core of the Divine connection within. Spirit awaits, the voice of God/Goddess All That Is, abides in that sacred space just below the heart that allows a depth of Love that has not been encountered by humans in eons of time. **THE LOVE AND MAGIK NEVER WENT AWAY. THEY HAVE BEEN HIDDEN IN THE MISTS OF ILLUSION, WAITING UNTIL THE TIME OF REVELATION TO OPEN THE WAY WITHIN SELF TO ASSIST ALL MORTALS TO EMBRACE THE POTENTIAL OF THEIR OWN IMMORTALITY.**

Living forever, is not a painful, haunting punishment of being separated from Love. You have experienced that in the Illusion. With each life in Illusion you have forgotten more of who you are and all that you have accomplished. What has been implanted in your psyche is a list of flaws and failures, that from our perspective are only experiments and experiences. To live with full consciousness of who you are and the ability to experience spirit’s guidance in your creations is, for many, beyond belief. The finite mind says that something as wonderful as this is impossible. **I ASSURE YOU, THAT IN GOD ALL THINGS ARE POSSIBLE, ACCORDING TO THE HIGHEST GOOD OF ALL CONCERNED!!** Be willing to examine, within yourself, to find the soil where the seeds of hatred have sprouted and use the violet flame and God’s sacred white fire to clear the

ground so that the seeds of Love and overcoming of Illusion may have full space to blossom and fill heart and soul with renewed wisdom. Our observation is that all have this divine awareness, simply waiting to be released from the limits of unconsciousness so that all may recognize “We are all one. Who others are, what they do, what they think, how they act is an expression of the whole”. What contributions are you making to heal the wound within so that the whole can be mended? You do not heal others, first, to suit your ideas and beliefs. You heal yourself and that allows new revelations to open up from the very depths of your soul. We are not attempting to control how you change, but to support you so that change moves in your life. The flow of life brings renewal to all. So may it ever be!!

We hold the Loving intensions that the increased energies of evolution will open heart and mind to new levels of awareness and interdependence among all of humanity. Look for the finest and most amazing aspects of each and every one, starting with yourself. As you see beyond the limits that have held the Earth at war, you can see/feel the More that awaits all. To accept the greater good is the Master’s choice for you. In the greatest of Love, We are with you. I AM the Lord St. Germain
