

# The Pot of Gold

from the Rainbow Center for the Humanities  
Lander Wyoming

This is what we see out our front windows these days. This is the Red Butte, a local land mark, that is about a quarter of a mile from our home. The purple flowers are Lupine and the white flowers are Loco Weed.

## August Newsletter

Lander is green again for the moment. We have had several days of wonderful rain and the hills look as though they are covered with green corduroy. The temperature has been below 85 for almost a week.

I just had a wonderful vacation with my fourteen year old granddaughter. I went to Spokane, WA on July 7<sup>th</sup> and on the 9<sup>th</sup> Corinthia and I headed for the Oregon coast.

We spent two nights at Seaside, OR and Corinthia got to see and swim in the Pacific Ocean for the first time. She avowed that she got salt poisoning and hypothermia, but she was laughing when she said it.

On Wednesday we drove down the Oregon coast on highway 101 so that we could see as much of the ocean as possible. We spent the night in Grants Pass, OR and then on Thursday we drove down to the Redwood Forest in Northern California. We spent

several hours there and then drove to Mt. Shasta. The only time I had been there before the fog was so thick we could barely see the mountain. I enjoyed seeing the mountain and driving all the way up to the highest point that you can drive on the mountain.

We came home through Reno, NV and Salt Lake City, UT. All of these places Corinthia had never seen before. It is such fun to see places you have been before through the eyes of someone who hasn't been there.

Three years ago I took Corinthia to Virginia to meet her mother. Due to unfortunate circumstances my son and her mother parted ways when she was 9 months old and Ned raised her. I felt that at almost twelve, it was time for her to meet the Mom and Grandmother that she only knew as voices on the phone.

Her teacher gave her six disposable cameras and told her to take pictures for her homework.

We drove from Spokane to Harrisonburg, VA. She took pictures everywhere we went. We stopped at the borders of every state and when she got home the teacher made a slide show and then Corinthia went to different schools and talked about her trip.

My daughter just took Corinthia home after two action packed weeks here in Lander.

---

We had a huge Harry Potter party here, as did most places around the world. We went to see movie number five and waited with baited breath for the seventh book to come out. Corinthia, my granddaughter, and I took turns reading. I finished the book Tuesday evening and Corinthia finished it on Wednesday. I couldn't say a word about the book until she finished. J. K. Rowling has brought the world such a gift. She was definitely led by spirit to inspire the Magikal child in everyone who read the books, saw the movies or just heard about them.

I see that there is no accident in the magik of Harry Potter showing up in these times. No more

coincidence than the Secret being presented to the world now.

If we are to remember who we really are we must begin by looking inside of ourselves for the Truth and allow the delight of everyday, practical Magik to fill us. This takes courage and commitment in order to become all that we really are.

---

Speaking of Magik—for those of you who missed the airing of “The Magikal Child” the DVD’s are available for \$45. This is a most delightful and enjoyable event. St. Germain weaves the story of your Magikal Child all around your and through you to help you remember the freedom and wonder of that pure state of joy.

You can obtain a set of the crystal ball and crystal points that St. Germain uses in the evening from Linda Thomas. Call her at 307 754-4396 or 800 757-8478.

---

Our next Evening with St. Germain is August 22<sup>nd</sup>, “What the Animals Teach You”.

Our September Evening will be “Let’s Talk about My Story”. St. Germain is going to talk about himself. He will answer questions that many people have been asking, “Just who is St. Germain?”

Our next group is August 12<sup>th</sup> and the title is “Living a Balanced Life”. CD’s of all of our groups are available.

## ASTROLOGY

### NEWMOON

Leo is the sign of creativity. The New Moon on August 12 brings us to a deeper awareness of our destiny, our purpose for being and being here on Earth at this time. Leo rules the heart. Is your heart in your life work? Do you take heart that you are bringing about what you have desired to give the world? Are you filled with heart-felt gratitude for being alive, now in the most momentous time the planet has know since it was created?

New Moons are always about our inner work and inner self. Some would say the New Moon deals with things we do in the dark. The New Moon is related to

woman and her internal cycles--how she dreams and gestates and births the dream.

The Master St. Germain says that the seeds of Eden exist in everyone. We have not lost our connection to the Divine, we just forgot were we put the seeds. They are in our heart and Leo can help us to find them again. The New Moon is the fertile soil in which the seeds may grow.

At this New Moon not only is the Sun and Moon, but Mercury, Venus and Saturn are in Leo. With five of the ten planets in the sign related to the heart the energetic attention of the planets is on our “center”.

Venus represents the goddess and Saturn relates to Father Time. The day after the New Moon Venus and Saturn make the second of three conjunctions this year. The first was on July 1<sup>st</sup> and the third will be on October 13<sup>th</sup>. When Venus meets Saturn, our relationships and resources undergo a reality check.

Neptune has been in opposition to Saturn for almost a year now and at this New Moon it will also oppose Sun, Moon, Mercury and Venus. The planets are assisting us to answer the call of the Universe to move from our egoic nature to our pure, true essence. Saturn says to Venus, “Be true, be realistic, be present in the moment”. Neptune says to Saturn, “Forgive the harshness of feeling abandoned and lift your eyes to the heights that now call you”.

In the song “Woodstock”, Joni Mitchell sang “We are stardust / We are golden / and we’ve got to get ourselves / Back to the garden.”

These are the best of times. “Ain’t nothin’ what it seems.”- St. Germain

### FULL MOON

August 28<sup>th</sup> brings a lunar eclipse in Pisces. The eclipse peaks at 4:35 a.m. MDT. Nineteen years ago on August 27<sup>th</sup> there was a lunar eclipse at 4 degrees 23’ of Pisces. What was happening in your life then? Have you responded to the call that was drawing you forward then? What is the most important desire in your life now?

Pisces keyword is Faith, while Virgo calls us to focus on the moment. Discernment is, perhaps, our most important tool in these times. This eclipse requires that these elements be attended to within self. Too

much of our focus has been on what others are doing/ or not, whether we have proven to others we are right/or not and the constant drama that the world puts before us every day. The focus must now shift to the center of our being.

Within ourselves we have a “safe place”, a “now place” where love abides. This center is energetically located between the heart chakra and the splenic chakra.

The New Moon and the Full Moon of August bring attention to this area where we find our safety and the love that helps us to keep both Faith and focus alive. On the day of the eclipse, Mercury, ruler of Virgo in Virgo, opposes Uranus in Pisces. We are being pushed to think outside the box more and more. Mercury opposing Uranus inspires free thinking.

The old order has told us to do what we are told, don't ask questions and don't make decisions for ourselves. This mindset has created responsibility without authority which will make you crazy.

Uranus always leads us toward the future. This opposition between Mercury and Uranus is helping to clear the myopia of not seeing beyond the tip of the nose, while reaching, without Faith, for the unformed future to save us.

As Uranus opposes Sun/Mercury in Virgo, Jupiter squares them from Sagittarius and Mars in Gemini completes a Grand Cross in Mutable signs. The Mutable signs represent flexibility and movement. A Grand Cross brings motivation, due to the tensions that are brought about. When you are not comfortable you cannot stay in the same position for long.

Saturn is finishing up its stay in Leo and on September 2<sup>nd</sup> it will enter Virgo for the next three years. At the time of the eclipse Saturn will be in a separating trine with Pluto. The opportunities for expanded creativity that 2007 has brought will continue to influence us in the years to come.

The Sabian symbols for this eclipse ask us to look beyond what we have believed we have seen for so long and graciously accept that there is so much more to life than just mundane, while we honor the part that everyday, mundane events play in life.

If you will never go beyond the edge of the light you see, you will never know that darkness doesn't swallow light. We are creating our own light, as we bring ourselves to edge, only to find there is never an end, only new beginnings.

## BIOGENESIS® TOOLS

### BioGenesis® - Modern Tools, Eternal Technology™

By Delores DeVore

*"We speak of regeneration of the most basic element within each individual—the Light of Creation. As this Light returns to the lives on Earth, all things are made possible." --Ascended Master Lantos*

It was only a few months ago that I learned about the BioGenesis Tools – Tools for Expansion. I have found these tools to be exceptional in their ability to allow us to heal and restore harmony and balance to our environment.

These tools have not been on the planet since Atlantis and are seventh dimensional tools.

Each month I will discuss a couple of different tools, so that you can begin to understand how they work and how you can use them for your benefit.

This month will be the most popular tools, the BioGenesis Pyramid and the 8-sided Pyramid.

Both of these pyramids work in similar ways. The difference is the 8-sided pyramid enlivens the connection with Celestial Realms of Light and brings greater energy, happiness and success.

The pyramids are the foundation, or cornerstone of BioGenesis. They teach the environment. They educate and restore harmony. Negative thought-forms do not leave – they are transformed to Light. These pyramids support growth and transformation of the environment and our lives. If you are interested in purchasing some of these tools, then either or both of these pyramids would be your first choice to purchase.

## How to Use the BioGenesis Pyramids:

Simply place the BioGenesis Pyramid in your home, work place, car -- anywhere you would like greater harmony. Try to place the Pyramid at the highest point in the room, such as on top of a bookcase or mantle. The BioGenesis Pyramids will begin to restore harmony to the environment. Once a stable foundation of harmony has been created, the BioGenesis Pyramids will start to remove the negativity that has been stored in the environment.

## CRYSTALS

### THE CRYSTAL CORNER

Where has the month gone??? I was sitting here contemplating where I would like to be in my spiritual growth and how I could facilitate getting to that point and wondering which of the stones could be my helpers. We have so many wonderful instruments to aid us along our journey.

I feel the first step would be to recognize that we live in a state of illusion. What is really real? Who am I? Several of the stones come to mind to work with when you truly desire to understand yourself and your path in the divine order of things. This requires looking into the mystery of yourself and forgiving the illusions.

One of the basic stones I would begin with is Obsidian. Obsidian is the result of volcanic activity and occurs in several colors. The most common are Black Obsidian, Mahogany Obsidian and Snowflake Obsidian which are ideal for dispelling illusion. The black is the more powerful and will ground and rip away illusions. With the other colors, the process is gentled some but is no less powerful and perhaps even more so despite its gentleness. Some would find that the Black Obsidian causes nausea or upset to their balance and so might use the other colors instead. Holding it in the solar plexus is ideal.

Charoite is an awesome stone from Siberia that reduces the illusion and draws in the understanding

of the magic of the universe. The Grand Force is neither dark nor light, it is All. Man has feared the darkness but the Great Void, the Mystery, is a place of darkness as the womb is a place of darkness. This is why man has feared it so. It is hidden, a mystery. Eventually, man will open to his own understanding of the mystery, that void and it will not be so fearsome, it will be awesome!!

Smoky Quartz helps to define mystery from darkness. There are those who are afraid of the dark and therefore cannot access the mysteries because they are so afraid of the dark. This stone helps them to journey into themselves and it work almost like the light on a miner's helmet so that they can see more clearly into their own darkness and the treasures that are there. This brings about the revelation of the mysteries.

Please remember that this is a journey and enjoy yourself! Add a little Dioptase for the joy and some Lepidolite for ease and enjoy the trip!

I was overly optimistic on the timing of the new and improved website but it really is a coming event! I can be reached through my website at [www.eternal-ice.com](http://www.eternal-ice.com) or email me at [eternalice@bresnan.net](mailto:eternalice@bresnan.net). My phone number is 800-757- 8478.

## YOU ARE IMPORTANT!

This article was sent to me and I decided that I would like to pass it on to everyone who receives my newsletter. I would just like you to know that it would be my great pleasure to personally give each one of you a blue ribbon and let you know that your presence on the planet is vitally important. I am very glad that you are a part of my life and that I can touch you with my words and heart, if not with my hands.

### Who I Am Makes a Difference

A teacher in New York decided to honor each of her Seniors in High School by telling them the difference that each of them had made. She called each student to the front of the class, one at a time. First, she told each of them how they had made a difference to her, and the class. Then she presented each of them with a blue ribbon, imprinted with **gold** letters, which read, 'Who I Am Makes a Difference.'

Afterwards, the teacher decided to do a class project, to see what kind of impact recognition would have on a Community. She gave each of the students three more blue ribbons, and instructed them to go out and spread this acknowledgment ceremony.

Then they were to follow up on the results, see who honored whom, and report to the class in about a week.

One of the boys in the class went to a junior executive in a nearby Company, and honored him for helping him with his career planning. He gave him a blue ribbon, and put it on his shirt.

Then he gave him two extra ribbons and said, 'We're doing a class project on recognition, and we'd like for you to go out, find somebody to honor, give them a blue ribbon, then give them the extra blue ribbon so they can acknowledge a third person, to keep this acknowledgment ceremony going. Then please report back to me and tell me what happened.'

Later that day, the junior executive went in to see his boss, who had been noted, by the way, as being kind of a grouchy fellow. He sat his boss down, and he told him that he deeply admired him for being a creative genius. The boss seemed very surprised. The junior executive asked him if he would accept the gift of the blue ribbon, and would he give him permission to put it on him. His surprised boss said, 'Well, sure.'

The junior executive took the blue ribbon and placed it right on his boss's jacket, above his heart. As he gave him the last extra ribbon, he said, 'Would you take this extra ribbon, and pass it on by honoring somebody else. The young boy who first gave me the ribbons is doing a project in school, and we want to keep this recognition ceremony going and find out how it affects people.'

That night, the boss came home to his 14-year-old son, and sat him down. He said, 'The most incredible thing happened to me today. I was in my office, and one of the junior executives came in and told me he admired me, and gave me a blue ribbon for being a creative genius. Imagine! He thinks I am a creative genius!'

Then he put a blue ribbon that says, 'Who I Am Makes a Difference', on my jacket above my heart. He gave me an extra ribbon and asked me to find somebody else to honor. As I was driving home tonight, I started thinking about whom I would honor with this ribbon, and I thought about you. I want to honor you. My days are hectic and when I come home, I do not pay a lot of attention to you. Sometimes I scream at you for not getting good enough grades in school, and for your bedroom being a mess. Somehow, tonight, I just wanted to sit here and, well, just let you know that you do make a difference to me. Besides your mother, you are the

most important person in my life. You're a great kid, and I love you!'

The startled boy started to sob and sob, and he could not stop crying His whole body shook. He looked up at his father and said through his tears,

'Dad, earlier tonight I sat in my room and wrote a letter to you and Mom, explaining why I had taken my own life, and I asked you to forgive me. I was going to commit suicide tonight after you were asleep.'

I just did not think that you cared at all. The letter is upstairs. I don't think I need it after all.'

His father walked upstairs and found a heartfelt letter full of anguish and pain.

The boss went back to work a changed man. He was no longer a grouch, but made sure to let all of his employees know that they made a difference.

The junior executive helped other young people with career planning, and never forgot to let them know that they made a difference in his life...one being the boss' son. In addition, the young boy and his classmates learned a valuable lesson, 'Who you are DOES make a difference'.

You are under no obligation to pass this on to anyone.... not to two people, or to two hundred. As far as I am concerned, you can forget it and move on. On the other hand, if you want, you could send it to all of the people who mean something to you, or send it to the one, two, or three people who mean the most. On the other hand, just smile and know that I think that you are important, or you would not have received this in the first place. Who you are does make a difference, and I wanted you to know that. Isn't this a wonderful story? I'm passing the blue ribbon to you, for who YOU are does make a difference, too.
