Spring Intensive

St. Germain will be offering an Intensive "Living the Virtues Brings an Elegant and Powerful Life". May 25, 26, 27, 2018. St. Germain will continue the theme for this year of how the Virtues enhance and bring new magick into our daily lives and affairs to enrich our growth and allow us to discover much more about how the inner world and the outer world are blending.

There are many worlds and the Illusion has prevented these worlds from being known to one another. The fear of other people who are different, has simply been expanded to a fear of any and all things that seem different. This has held humanity in a form of stasis which is now beginning to melt away in the Love that is returning to the Earth. Not the conditional love of only caring for or attending to those that we know,

but the Love without a condition that allows us to receive great benefits from interdependence with all of humanity.

This Intensive will be held here in the beautiful mountains of central, western Wyoming, not too far from Table Mountain, WY which is one of St. Germain's special places in the world. This area is filled with sacred vortexes and is a wonderful place to feel the magik, both ancient and now. We invite you to join us in this amazing opportunity to remember the magik and rediscover yourself.

We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

The April group is "All of the Beings of Earth Are One". The arrogance of the Illusion has focused heavily on separation, differences and superiorities/inferiorities. Examining just how heavy the weight of judgments about better than/worse than feels can be the journey to releasing old measures and appreciating that differences are what makes each being beautiful, important and special. Spirit does not look for good and bad, right and wrong or who is better. Spirit enjoys the diversity and uniqueness of all of God's creation. There would not be so many angry people if they could realize that they are one of a kind, rather than inferior goods measured against others who are also different. The group will be April 15, 2018 at 2 pm MDT.

CD's can be purchased on the website at [Click Here for 2018 Groups](#)

Our new family of Dragons. There is one for each element.

St. Germain brings the Virtues for this month by talking about "The Nobility of Your Mastery". Nobility in the World is a show of rank. Nobility in spirit is the quiet, powerful acceptance of who and what we are and living that Wisdom in every creation and action that we make. "I AM a Master" is not information tossed out to impress others. This awareness is the foundation of how the life is lived. Mastery is not a cloak that is put on for special occasions and then put into the closet until it is needed again. Mastery is the whole Self, within and without, all of one piece, which is who you present to the World all of the time. Your Mastery is who you are! Our April Teaching will be April 11 at 7 pm MDT.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST. The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

Alter for the Full Moon/Blue Moon on March 31

ASTROLOGY

NEW MOON IN ARIES - APRIL 15-16

This New Moon is about moving our dreams into manifestation. We have had time to dream while Full Moon was in Virgo and Sun in Pisces, while the New Moon, just past, was in Pisces, inspiring and encouraging those dreams. The Full Moon in Libra called for unity and creating together. This New Moon brings the energy to open the seeds of new creation within us and motivate the action to advance. This is the first New Moon of the astrological New Year and it cojoins Uranus, which brings about revolution, freedom and sudden changes.

As the Full Moon the end of March brought about unified demonstrations all over the United States, as youth turned out to protest gun violence. The Aries Sun can be the aggressor, but Moon in Libra calls for peaceful changes. The Moon was actually in the sign of Gemini, President Trump's Sun sign on March 24th when the demonstrations first took place. The fact that the Moon was in trine to the placement of the Full Moon on March 31st brought powerful new ideas and the motivation to continue to take action to achieve specific goals.

This New Moon in Aries conjunct Uranus, continues to encourage us to break out of confining self-concepts and the power to liberate our individual genius to ignite the collective brilliance to whole new levels of inspiration. As the stay of Uranus in Aries ends we get a final jolt of awakening to bring us to alignment with all that we are potentially capable of. As Uranus moves into Taurus on May 15, we are challenged to move through our fears and take the risk of going after what we want. While the Sun in Aries is exalted and strengthens our desire and will, Uranus influence on this New Moon suggests that we would be well served to surrender the preferences of our EGO and flow with the changes that are bringing the unexpected. Eris, the Goddess of Discord is adding extra energy of chaos at this New Moon. Uranus and Eris have been traveling together since 2016 and are bracketing this New Moon to catalyze this conjunction. There is an out of sign stellium including Neptune, Juno Chiron in Pisces, Mercury, Eris, Moon, Sun and Uranus in Aries. This intensely powerful stellium operates much like a freight train moving the intensity of our psychic, intuitive energies into the daily operation of our lives.

Will you allow it to strengthen your resolve or overwhelm you? It is a Master's choice.

Since March 22 Mercury has been retrograde and on April 17th it stations and turns direct. As Mercury turns direct it cojoins Chiron in the last degree of Pisces and moves into Aries on April 17. This conjunction allows us to move forward with new realization that our wounds can be healed and we were never victims to be held back by our pain. Chiron, the Wounded Healer, opens our heart and connects us to deeper levels of our own compassion and tenderness. This brings a whole new essence to the Warrior as Chiron passes through the sign of the Warrior, Aries. The Spiritual Warrior is not a fighter, but seeks to sustain the Virtues of our Mastery.

Mars, the ruler of Aires, is in the sign of Capricorn, the sign of its exaltation. Mars in the earthy sign of Capricorn brings the focus, discipline and persistence to harness Aries fiery nature and take our creative desires to a new level of manifestation. This can show us the energetic key to owning the authorship of our lives, while releasing control. Mars sit between Saturn and Pluto. Vesta is also a part of this formidable lineup in Capricorn, which suggests that this New Moon is not only a time of powerful new beginnings but can bring things that have been hanging to completion. The intense Saturnian influence at the New Moon advises us to set aside impulse and impatience and op for long-term consideration of where we desire our dreams to take us. What might seem to be immediate gratification, can collapse without the proper foundations laid in advance. Jupiter in Scorpio sextiles the Mars-Pluto conjunction and is approaching its second trine with Neptune in Pisces. The Jupiter-Neptune flow of invisible positive forces ad the powerful influence of Saturn on our imagination are reflected in the opening to understanding how to use our creative energies in a clearer and more positive way. First, it is vital to define what the goal is and then to allow spirit to assist us on bringing the most positive outcome. The mind tends to want to select what appears to be the best result, but often the mental perspective is either skewed or limited.

This New Moon is yet another step forward into the ongoing evolution of spiritual connectedness in our human affairs.

FULL MOON IN SCORPIO – April 29-30

As the New Moon in Aries presented us with the element of fire and the Sun's movement through this fiery sign is powerful, this Full Moon in Scorpio intensifies the fire qualities set in motion by Aries. Even though Scorpio is a water sign. The planet Pluto, ruler of the Underworld and co-ruler of Scorpio along with Mars bring a fiery quality to this sign associated with transformation.

Taurus is the Earth Mother that brings us new abundance. Scorpio, the Dark Mother, clears away the things that no longer serve us. There has, throughout time, developed a fear of loss entangled with the transformational process. Humans do not let go easily, nor do they embrace change in their own lives. If change does occur it should happen elsewhere. Yet without change there would be no movement and without endings there would be no room for beginnings. The movement in the Heavens now is showing us how to navigate through what has been considered fearful to discover all of the amazing gifts that await humanity right here/right NOW.

Scorpio rules the subconscious, and this Full Moon opens and accesses the deep inner workings that assist us to connect to and utilize our spiritual element. Spirit is seeking to embrace all that we are in new aspects of personal unfoldment. The etheric heart-opening is triggering changes in the physical heart that allow us more compassion and gentleness than we have been given in life times of Illusion. This brings us

to touch those place within us that we have protected against invasion or involvement. This is not a comfortable Full Moon because we are being exposed to the raw emotions that disturb us, so that we may remember how to channel the energy in positive and intimate ways. We may feel vulnerable and emotionally on edge. As enlightenment dawns in these hidden places, powerful truths and unrevealed desires are surfacing to help us integrate the new understanding and memories of Ancient times to rediscover the mysteries and Magick that are being returned to the Earth now.

The Full Moon is moving toward a conjunction with Jupiter which amplifies all of the feelings and offers us a full emotional range. The important shift is for us to Love ourselves, both dark and light. Acceptance is not resignation or indulgence. Acceptance helps us to set aside judgment, which clouds the vision of where we desire to go and what we would most enjoy creating in our lives now. The Scorpio Full Moon conjunct Jupiter, can activate, for many, what is meta-physically called "The Night Journey". This is an initiation that can be completely transformational. It is the entrance into the internal realms of Spirit that exists in each and everyone on Earth. The EGO-mind can deny the possibility or claim that this isn't real. The denial or dismissal does not prevent the initiation when it is time, but the resistance can delay the self-discoveries that are necessary in these changing times. "The Night Journey" takes the sub-conscious mind into the inner darkness. There, the opportunity to find the hidden treasures that exist within self is given. "The Night Journey" is optional, only in how the initiate responds. For some it may come in the form of a dream. For others it may take the form of feeling as though a trip is being taken into the realms of the inner life. Drugs only deter the outcome. Distorting spiritual quests doesn't stop the process but can lead to nightmares instead of sweet dreams.

Further increasing the intensity, The Full Moon squares the lunar nodes, forming a fixed grand square the highlights our attachments and karmic patterns. The sun's square to the nodal axis indicates a Moon Wobble, yet another signifier of the volatility of this lunation. Moon Wobble occur when the Sun is conjunct or square to the nodes, and are synced with the eclipse cycle, carrying similar emotional charge. People tend to be more volatile and reactive than usual. As we navigate Scorpio's depths the Leo North Nodes suggest that we keep a lighthearted attitude and steer clear of the drama. Ceres co-joins the North Node, which can help us to heal our mother wounds by nurturing and loving the inner child.

Mars and Pluto, the co-rulers of Scorpio, are conjunct in Capricorn—the sign of Mars exaltation. Mars disposes not only the Moon and Jupiter in Scorpio, but five planets in Aries, with Chiron in the first degree and Uranus in the last degree. These aspects tell us that even though the energies of this Full Moon can bring discomfort there is still powerful potential for moving in positive and productive directions. Saturn is strong in its home position and forms a harmonious trine to the Sun and sextile the Moon, assisting us to stay balanced and clear about our priorities.

Neptune in Pisces is also a supportive influence at this Full Moon. Its trine to the Moon and Jupiter bring softening energies to balance the Martian drive. The ongoing trine between Neptune and Jupiter heightens our sensitivity to the unseen and provides opportunities for us to evolve spiritually to higher levels of awareness. The higher potential of this Neptune/Jupiter trine is especially present now as this is the Wesak Full Moon, when Buddha returns to the Earth with a blessing for humanity. In the midst of the intense heart-opening that we are experiencing we are especially receptive to the influx of healing and enlightenment. Use these supportive energies to lift your spirits and open your consciousness to MORE.

HOW DOES IT FEEL TO BE A MILLIONAIRE? This is not something to think about, but to allow yourself to experience the essence of wealth that the Universe is providing right now. The question is not, “How do I get it or how do I do it? But will I allow it?” - St. Germain

When you look for beauty where you are, you will find it. When you look for truth within, you will find it. When you look for Love where ever you are, Love finds you. – St. Germain

Find your place, take your stand. Bring more of your Light of Being into your world and into the world around you. You are ready, more ready than you realize. You are ready to more actively participate in the Great Work and in the grander plan of planetary healing. - Lazaris

ST. GERMAIN'S MESSAGE

Love is honest. It offers uplifting advice and supportive examples. Love lives what it says. The

cutting judgments of the old order have been subliminally destructive, rather encouragement for character building. The Illusion tends to speak out of both sides of its mouth: One side says how important our children are, while the other side denies teachers enough money to continue teaching, eliminates funding for books, technology and the arts, refuses to provide adequate food, so that many children go to bed hungry every night and have no idea that they are important to anyone. Politicians may say that they are making the country better, but how can an impoverished, hungry, ill-educated populace have the desire or the energy to make life better. Especially, when many live in daily fear of being taken from their homes and sent to countries that they have never seen.

For lifetimes humanity has jostled for position in order to feel valuable, worthy, in an attempt to prove that their life was good enough to be noted in the overall scheme of things. Those who have obtained positions of power took that as an indication that they were superior and therefore no longer had to see what others were experiencing. These “chosen ones” could insulate themselves from the people who “have not” and turn their face away from the suffering. The EGO mind has impressed the psyche of humanity with avoidance, distancing and the fear of contamination from those who look, act and believe differently. Science has proven many wonderful facts of nature and then used those facts to *prove* that some people are just naturally superior. Religions, political systems, institutions of “higher” learning have taught that there are selective differences that support superiority.

All of humanity is beginning to sense changes within themselves and those changes are making great differences in all stratum of society. The movie industry in Hollywood has chosen to focus on crime, violence and the horror of the human condition without the consideration of positive options. The primary theme for many years has simply been “kill the bad guys”. Who are the bad guys? Truly, any child who finds himself/herself in desperate situations of life and death anywhere in the world. The child may be a mature adult who never knew anything but fighting to survive. The Old Order has just looked the other way, muttering under its breath, “It’s not my problem”.

All of the children belong to the world. All of the people deserve to be treated well. Every Soul is valuable to GOD. The most precious resources the Earth has are the beautiful, brilliant minds of the children that are now emerging to lead the planet in positive new directions. **WHEN YOU TURN YOUR BACK ON ANYONE, PART OF YOU FEELS**

ABANDONED. The Old Order has wanted to step in and make everyone conform to a prescribed way of living. This denies Free Will and creative choice. The assumption has been that people *need to be controlled*. Who in the world has the right to dominate the choices of others?

THE ego mind operates on the premise of either/or. People are either controlled or ignored. It takes great courage to look within self and find the Love that abides there in order to **RISE UP** and live who you would Love to be. Many children are now being lifted up by the adults who are awakening Souls that are remembering who *they* are. There are more enlightened beings on Earth than ever before, but enlightenment is not just another good reason to be superior. Enlightenment shines the spotlight of the Spirit on the beautiful path of growth and awareness within. As the discovery of the wonder of self is made the blindness to the goodness of others falls away. **SPIRITUAL EVOLUTION BEGINS WITHIN SELF AND CLARIFIES THE VISION OF THE NEW EARTH’S EMERGENCE.** The New Vision isn’t looking through the distorted lens of the past. The New Vision is thrilled with the unlimited potentials that are showing up everywhere. Those who would cling to the belief that there is not enough for everyone will continue for a while to attempt to operate under the same old illusions that have denied so many wonderful, creative beings throughout time. The idea that Mediocrity is the measure of many while only a few have a chance is dying with the dusty, moldy ideas of the past.. In the current time what is called “Your fifteen minutes in the Sun” finds people scrambling and squabbling to get noticed by others. **THE MOST IMPORTANT PERSON TO NOTICE YOU, IS YOU!** Until you take the time to connect with who you are, what you feel (much more powerful than what you think), and what you might contribute to the flow of life if you are willing to change your perspective, you can continue to believe that the opinions of others are far more important in your life than your own values and visions.

We have talked about how growth is the outcome of change. It isn’t how you get what you want nearly so much as it is that you get what you desire with grace. The fight to be important “at any cost” is being reflected in the gyrations on the public stage of those who believe that notoriety is just as valuable as integrity. Many are men still acting like testosterone driven little boys and believing that no one sees that the “Emperor has no clothes on”. The Godfather mentality is passing with the old order as the Souls of humanity are Rising Up to live what they feel, rather

ducking into the shadows to hide from the punishment of those with more power. **MONEY IS ENERGY.** It is the symbol of the flow of the creative essence of God. **ENERGY** is neutral. It is what each individual chooses to create that determines whether the energy is helpful or destructive.

WE SEE THE WORLD'S EVOLUTION AND WE REJOICE. SO MANY ARE CHOOSING TO MAKE THEIR STATEMENTS IN QUIET DETERMINATION, RATHER THAN RAGING AGAINST THE OLD WAYS. Violence is momentarily intimidating. The quiet strength of faith stands when the dust of war has blown away.

The Master Joan Biaz wrote in one of her recent songs, "One man's hate becomes our country's shame." But the hate of one is becoming the revelation of many to have smoldered in unspoken rage against any and all that are different. **BELOVED MASTERS, TO HATE ANYTHING OUTSIDE OF YOU IS TO HATE SELF. WHAT IS OUTSIDE IS ONLY REFLECTIONS OF WHAT IS WITHIN.**

To think about the changes that you would like to see and then hope that someone else will make them is just another way of resisting change. To feel those changes happening in you brings the new Earth into being. Every change that you are willing to allow for yourself in your own life is another step toward civilization being civilized. The changes occur, not because people act as if, but because they really live what they are calling into their lives **NOW.**

When you look into your own heart and recognize that hate is a disease that is eating humanity up from the inside out, cancer will begin to diminish. When you dare to feel rather than closing your heart in fear, heart disease will begin to lessen in both men and women. When your life is more important than "getting there" (whatever that means) or measuring up to things that can fall apart in a moment, strokes, aneurysms and pressure related diseases will begin to fade away.

YOU ARE THE ANSWER! YOU ARE THE SOLUTION! IT ISN'T SOMETHING OR SOMEONE OUT THERE. IT IS YOUR OWN WONDEROUS, DIVINE, AMAZING SELF WITH THE WISDOM AND PURITY OF PURPOSE THAT IS A GIFT OF LOVE, THAT MAKES THE BIGGEST DIFFERENCE. WHO YOU ARE INFLUENCES THE WORLD, NOT BECAUSE YOU STAND ON A STAGE OR A

PEDESTAL, BUT BECAUSE THE ENERGETIC FLOW OF YOUR LIFE IMBUES THE LIFE FORCE OF THE WORLD. YOU ARE IMPORTANT. ALL ARE IMPORTANT. LIVE THE LOVE AS TRULY AND CLEARLY AS YOU CAN IN THIS MOMENT AND THE NEXT MOMENT WILL BE THAT MUCH MORE POWERFUL.

In the greatest of Love We are with every step of the way. If you feel doubt, it isn't because you have failed, but because the EGO fears your strength, Love and courage. We seek to serve you as you are willing to allow the assistance of Spirit. **I AM the Lord St. Germain**
