### Fall Intensive

Our Fall Intensive is "Discover how to find the New Human within You". As the Revelation is moving quicker, we are all experiencing changes that both amazing and disturb us. St. Germain defines the direction that this evolution is taking us and how it is redirecting the way that the planet has functioned for lifetimes. Every aspect of life on the planet is being touched by these changes. No one can sit by and *think* about whether they will change. If we are on the planet we have agreed to make the shifts or be shifted.

The chaos of the times is a manifestation of the EGO minds confusion. When there is confusion around any situation it simply means that we are trying too hard to make something happen or trying to figure things out from a logical point of view, rather than allowing our intuition and spiritual flow to guide the process. St. Germain brings clarity and understanding to help us move through these changes with peace and ease.

**The Intensive will be held here in the beautiful foothills of the Wind River Mountains on November 9, 10 and 11. The cost is \$350 for the three-day event. We would love to have you join us and experience the amazing energy of St. Germain in the powerful essence of the Lander Valley.**

For information on accommodations, travel and other things of importance call or email Molly at 307 335-8113 or mollyrowland22@gmail.com.

CDs and mp3s will be available.

The July group is “The Commitment to Positive Living Supports Living Mastery”. As the planet is being lifted in its vibrational frequency, it would appear that everything is falling apart. Reconstruction always requires rebuilding and often that means that some things must be rebuilt from the ground up. The strong foundations upon which the rebuilding now takes place are within rather than some spot of earth on the planet.

St. Germain offers new vision and direction for all who are courageous and determined to find who they really are. When the weight of old beliefs is removed from ones shoulders the energy of revelation lifts the life to higher vision and Enlightenment offers insights that were not available until the old filters were removed. The choice to live positive requires that each person be clear and present with self and understand that positive choices change the life to move in a whole new direction. Your positive choices have a powerful influence on others. Coercion and control are not positive choices. If the choice feels unsteady, anxious or aggressive it requires the time to feel into, “How can this positively assist myself or anyone else?” When you find yourself in a situation that feels unbalanced, it probably is. Always feel for the Love to guide you.

July’s Group will be on July 15<sup>th</sup> at 2pm MDT.

CD’s can be purchased on the website at [Click Here for 2018 Groups](#)

St. Germain continues addressing the Virtues in July by addressing “Patience, the Virtue that is Most Ignored.” This is a very important consideration for these times on the planet. Patience has long been

overlooked, ignored because it requires taking a moment to feel into self and the situation and decide to remain calm and access what is really being said or done rather than making snap decisions based on assumptions. Patience calls forth the Master in each person, in each situation. It is time for all people to begin to feel into themselves and discover the living Master that they are. Being patient with self allows the recognition of personal worth and value that change the responses to life.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST.

The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven’t had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

We happened upon these three teams of horses pulling old fashioned tractors doing a haying. It was amazing to watch how well trained the horses are. Each team would side-step together in order to make the next turn and be in line with the grass. We watched for a long time. It was like looking into the past.

## ASTROLOGY

### JULY 12-13 – CANCER SOLAR ECLIPSE

Eclipses are super powerful lunations that accelerate growth and change. They often catalyze major endings and/or beginnings. They occur every six months and occur in pairs or as with this summer in threes. This partial eclipse in Cancer will be followed by a lunar eclipse and then another solar eclipse. As we enter into this extended period of potential upheaval and emotional eruption we can apply the discoveries that are made in the first eclipse to help us see/feel our way clearly to find our Soul center that allows us to feel at home within and without of ourselves.

Cancer represents home, family, both birth family and cosmic family and that recognition of belonging that

can only be found as we connect to our sacred center. So much of the emotional upheaval that is being experienced on the planet now comes from the deep desire to be accepted by parents and family. Many people give their power always to family members, hoping that if they can please others they will feel better about themselves. This lunar eclipse advises us to nurture and care for ourselves so that we feel supported in all that we share with others. Cancer seeks shelter, safety and comfort that only home can offer. The only true security is found within. The grand trine in earth, including Saturn in Capricorn, Uranus and Juno in Taurus and Venus and Ceres in Virgo provides us with the grounding energies to connect, not only with the Earth Mother, but to feel love and gratitude for our relationships with people all over the world, in both physical and spiritual aspects.

Cancer's connection to deep emotions can bring reactions due to hyper-sensitivity, as well as, more powerful intuitive connections. The explosive aspects of emotions are comparable to the volcanic eruptions that are occurring around the globe. Each individual on the planet is being called to reassess their emotional responses in each frame of their life. Emotions cannot be dealt with as a whole, without considering "How am I responding in this particular situation?" While Cancer tends to cling to the past and resist change, eclipses are all about shift and change and moving in new directions. When we can allow the energy of life to move through us we can turn our emotions into feelings, the higher octave of emotion and gain new insights into how to be with the life we are being called to live.

The house in your natal chart that contains 20 degrees of Cancer can offer clues to things and/or people in your life that are no longer serving where you now must move. It does not mean "get rid of them, but reconsider how the involvement is influencing your progress. Eclipses can cast a light into the darkness of avoidance and bring stuck situations to a culmination, which allows movement and growth.

Amplifying the transformational potential and emotional charge of this lunation, the Sun and Moon are in exact opposition to Pluto in Capricorn. Pluto reveals our shadows and its interaction with this Cancer eclipse shines alight on family dysfunction and the distortions in family dynamics and intimate relationships. We are required to feel into how we hover over others in the name of caring or where we close ourselves off from heart opening allowing rather than deal with the fear of exposure in intimacy. Fear of love has become an almost overwhelming emotion in the chaos of change that Revelation is bringing to humanity. The defensiveness of hype-personalizing and oversensitivity can cause a tendency to take on issues of others that are not our concern. The power of this eclipse provides the capability to make the shifts and changes that are necessary of a greater sense of freedom to give and receive in love.

A grand trine in water includes the Cancer eclipse, Jupiter in Scorpio and Neptune in Pisces. This inspires new levels of imagination which empowers our creative potential. As we focus on the positive direction of our life's ongoing, we further open the doorway to our own inner space. There we connect to a treasure trove of tools, inspiration and ability to move our lives in the direction that we have desired.

### JULY 27 - AQUARIUS LUNAR ECLIPSE

A lunar eclipse occurs when the Earth's shadow falls between the Sun and Moon. The super power of the lunar eclipse is supported by the energy of the darkness that occurs in the midst of the brightest night of the month. The power of the magick that flows as the dark and light dance together and move from bright to the depth of the void and back to light again. Shadows, secrets and feelings that overwhelm us because they feel too big are touched into in the depth of the eclipse. Changes that have been put on the back burner now push forward and we can not only see how the shifts can assist us, but we can feel the security and clarity that allows us to take the next step.

The total eclipse in Aquarius falls between the South Node and retrograde Mars, bringing a strong emphasis on tying up loose ends, finishing things that have been left incomplete and letting go of the energetic binding of the past. People from other lifetimes, literally and figuratively, may show up in this time. The emphasis on fixed signs and retrograde planets can make us feel as though we are moving backward, regressing into old patterns. Actually, we are peeling away more old layers of what no longer is valid in our lives. We are being provided with the energy to move forward. Consider that when a cat is preparing to leap forward, it first settles in and gets ready to spring. Timing is everything so looking before the leap is most wise.

For those who are holding on to a past that no longer exists this eclipse can be a blessing, because it provides a deeper and grander awareness of what is blocking our progress so that we can see our way clear to make movement. The North Node in Leo assures us that our hearts desires and passions will guide us to fulfillment. When we pay attention to the light within, what illuminates us also affirms our creative direction. Money, energy and power tend to follow the path of JOY!

Mars retrograde is eclipsed with the Moon representing a significant turning point in our lives. During this Mars retrograde (June 26 to August 27) we are encouraged to get real with our deepest desires. We can create anything that we desire, but the fear of failure or even greater the fear of success, can cause us to turn away from our potential greatness. To be great is not necessarily a world-shaking event. More often it is the astounding realization that we are amazing, capable and powerful beings just as we are. As the Full Moon conjoins Mars and the South Node, we may find that our intuitive recognition is clear and we see/feel things that have been right in front of us energetically and/or physically. Long repressed anger can be triggered or unconscious patterns of fury uncovered. The mastery is to take note of the potential to release encapsulated rage without harming self or others. Exploding or imploding does not truly bring clarity.

Old patterns of masculine behavior will be revealed and the recognition that they no longer fit in modern society will be more obvious. We will, more than likely see more of the distorted masculine that is not aligned with where humanity is heading. This old male pattern can cause eruptions on the world stage - war, violence domination. Mars is out of bound from July 7 to September 24, which can correlate with extreme

manifestations of masculine energy. What is ultimately brought to consciousness is how these old patterns have perpetuated unrest, dissension and violate emotional reactions for lifetimes. As we see what requires to be shifted we can begin with making the changes within ourselves, whether the gender we have chosen is masculine or feminine. We are being called to access a version of the masculine beyond the rules and norms of social convention, a Mars that reflects the Aquarian Age ideas of equality and freedom for all.

Mercury, stationed to go retrograde on July 26 and it will remain retrograde until August 19. Uranus in Taurus squares The Sun, Moon, Mars and the nodal axis emphasizing the revolutionary and revelatory aspects of this eclipse. Unexpected events, erratic behavior, sudden changes and radical breaks with the past are possible. We may feel as though we are in a centrifuge of chaos, but this Uranian upheaval can shake us out of old stagnant patterns. Uranus trines Saturn, the traditional ruler of Aquarius and this advises us to integrate the changes into ourselves to bring improved and tangible reforms.

As we enter the darkness of the unknown we are directed to feel and live our faith in a new and powerful way. We have been imprisoned in the old thoughts, ideas and beliefs far too long. There is so much of life that we have not found because we were assured that nothing more that what we could see exists. The changes have been presented as ominous but, change ALWAYS leads to something better. Change simply clears the obstacles that we thought were "all that is" and opens a new scope of possibilities for us to choose from. Another eclipse follows in August.

Louis Lake is one of the biggest lakes up the “switchbacks”. There is boating, fishing, camping, hiking and everything that the outdoors could offer, except repelling down a mountain and that is at the other end of the switchbacks.

I am sure that this old tree has many stories to tell. The wind has pushed it almost over yet it still remains, living with its roots almost pulled from the ground. A testimony to endurance.

### QUOTES FOR THE MONTH from St. Germain

Amid all the mysteries it is forgiveness that is the miracle of magick, the miracle of your magick. Forgiveness nurtures, nourishes, and heals. Forgiveness can be that amazing light showing you your way to open your heart, open your mind. Listen to the splendor of forgiveness....and forgive. - Lazaris

Life is waiting for you to hear its call – a call that is quiet and comforting, a call that is filled with

promise. Rest for a while and listen to the peaceful sounds deep within in the Soul Center. Let life be now, instead of somewhere else, so that you can understand everything you desire is NOW. – St. Germain

When the focus is on what is outside it feels separate. When the attention is on others the sense of deprivation of self is strong. When the focus is on what Spirit holds for you, everything else begins to move into place. Include yourself and all else will be included. – St. Germain

Let the Goddess bring her peace and comfort. Allow God/Goddess/All That Is to show how the balance of inside and out, intellect and artistry, masculine and feminine fill the inner space with renewed strength, confidence and belonging. You are beloved always. - --St. Germain

### ST. GERMAIN'S MESSAGE

THE PERSONAL POWER THAT IS EXPERIENCED FROM LIVING IN FAITH IS BEYOND THE CONFINES OF THE LOGICAL MIND!!

The belief that “If I have IT ALL, then I will have unlimited happiness” is proving to be false. A great part of the joy of life is the mystery—what is coming, what is the gift, what is the reward. The intellect wants answers ahead of time so that it can plan. People will

say “I hate surprises”. Yet that unknown quotient is a great part of the spice of life.

When the Industrial Evolution started people began to have more money and the focus of the majority turned to **HOW MUCH MONEY CAN I MAKE, WHAT DO I NEED, AND THE PRIORITIES OF LIFE SHIFTED**. Money became a proof of **LOVE**.

Children were given money rather than attention and the psychology changed so that money became identified as Love. The measure of what could be given brought judgments around earning ability and life style provisions. The quality of life took another step toward outer focus.

Now, suddenly, Revelation has brought the spotlight to shine on inner poverty. The undernourished self within. Money without Love brings little, if any, sense of security. People who have attained “lifestyles of the Rich and Famous” are taking their own lives in sheer desperation, because the promises of the outer world do not bring Love and a sense of belonging. Utopia, is only achieved when you belong in your own life.

There is so much anger and frustration with what is going on in the world. People think that the answer would be for everyone to have an equal amount of money. The idea that if everyone received \$2,500 a month the world would be a happy place, could be a beginning of a new evolution. However, when life begins to expand the creative potential opens up more. The mind wants more, but the self-value quotient does not always increase with the income. Some people would still see a consistent income as a way to support their addictions—drugs, gambling, stock market, smoking drinking, eating without consideration and the bills still might go unattended. The steady income could assure that people could go out more, but it would not guarantee companionship or emotionally satisfying relationships. Extra money could mean “getting away from it all”, but it would not change the fact that life is what each individual makes it. More often than not, humans know what they do not want, but are foggy on what they genuinely desire. The idea that the world needs to change does not always include self-change. What each person finds in the world outside is the creation of their own fears, doubts, desires and dreams and the beliefs that create filters and distortions to deny the positive outcomes.

Wanting what other people have very often leads to major disillusionment. She is beautiful and therefore, her life is happy. He is rich and therefore he can do anything that he wants. Rich is a relative concept. There are people who love the life they have created

and they feel very rich in the love that they have and the beauty that they live in even if their bank account might seem very ordinary. Some people are rich with a cabin in the woods and others think that they must have a huge home or several houses to feel comfortable. The idea that having nothing to do is a great life is quickly dispelled if there is no joyful activity in the life. Humans were created to be active—mentally, physically and if there is no stimulation then over active emotions can bring serious imbalance to the otherwise empty life. However, you find your life, it is still your own personal choices about how you will progress with that life. Change is a gift, yet so many people fear stepping out into the unknown or perhaps, they believe that the change will make them different so they look for a new house or a new town or a different group of people to associate with.

The Illusion has encouraged the “outlook” rather than times of introspection. The changes that are happening on Earth now are shaking everything and everyone up. The planet herself is readjusting and seeking balance in the most severe emotional upheavals that the planet has ever experienced. The most astounding and disturbing revelations are **EVERY PERSON ON EARTH IS A LIVING MASTER!!!** The consciousness is expanding. People are feeling weird, different, strange, *crazy* and because the feeling of mastery is unfamiliar the hatred and fear of what is different is expressed. There have been many discoveries over the last hundred years about manipulating the mind, brainwaves and sending subliminal messages through the media. There is much denial that these things exist, but the Illusion has been devoted to secrecy. The belief that the ordinary person is not strong enough to deal with things that are “outside” the box has inspired much activity that is not spoken about in general conversation. Revelation is pulling the walls down, opening doors that have long been closed and revealing important things that will assist humanity to excel, accelerate and ascend if there is a willingness to, not only think outside of the box, but step outside of the illusion of safety that the *box* supposedly has offered. When there is the courage, personal courage, to experience new things, explore the inner world to discover potential of what the outer world can offer, then there is a profound discovery of what a living master’s life really is. It is beauty beyond imagining because the filters of old darkness dissolve in the wonder of **MORE**. The master’s life is fulfilling, because the life that is Now is the most important life. The life lived in the future is never as exciting because there is always that feeling of waiting for the good and the belief that it will never come true. A living master’s focus is on positive outcomes, even when things a

appear to be impossible, because as each person connects with their inner mastery they also find the personal magick that empowers greater, more wonderful outcomes.

The idea that there is only one master or one ruler or one group of enlightened people on earth is a part of the limited perspective of the old order. As the recognition that all are masters dawns each person is required to find the understanding and allowing that brings a new life. The wars to prove righteousness, anger and outrage over inappropriate treatment and behavior, the desperation of feeling as though there is no place to be at home are programs of Illusion. The opening to the awareness of self-value and self-empowerment allow Revelations Light to shine in the inner realms of each being. The illumination of the places where humanity has been warned away from approaching within, demonstrates just what enlightenment truly is. This new experience is not something that has to be fought over. The experience is intimate, personal and divine. This is not something that can be taken away from one person and used by another. The master's life is the gift that God gave to each Soul at the beginning. The mind has attempted to design a world that is filled with loss and lack and constantly seeks to prove that that illusion is real.

What you think about is creation. What you fight for is a negative creation. What you choose to believe or disbelieve is personal creation. You make your life based on the ideas and beliefs that you dwell upon. Think about, talk about and constantly affirm poverty, lack and limit and not only will you live that way, but it will intensify. Imagine peace and feel it within you, hold the power of the peace that you are creating and continue to build on the energy of peace that is growing. Life will bring tests and the EGO will attempt to assure you that peace cannot happen here, but the strength, determination and courage to live peacefully will begin to show evidence in your daily life. The mind may want to question if the new-found peace really has anything to do with your desire for peace, but as you continue to envision peace, feel it in your Soul and heart, there will be more and greater peace. You cannot make others be peaceful, so if your focus is on changing them there will probably be some disappointment. Everyone has the divine right to free will, so no one has the right to force others to comply to their wishes. The Illusion has pushed the idea that most of humanity is incompetent and incapable of making wise choices, so now that it is time to live your greatest life, many are afraid to dare to make choices because "what if I do something wrong"? Power of positive thinking is "What if my choice makes a

wonderful difference that the world would have had to do without if I did not have the courage to step into the unknown and choose?" FAITH is magnificent and it is constantly a call to take that next step without a logical assurance of the outcome. FAITH bring the inner confidence that things are moving in the divinely appropriate direction. Doubt is strong, but FAITH is much stronger.

The tug of the EGO to look out into the world and assume that what you see there is real is, of necessity, changing. The Illusion has presented logical ideas that sound good if they are considered quickly and not examined too closely. "That makes sense" is a response that is spoken without much feeling into what is really being said. We always suggest that you consider the advice that we offer and feel into the potentials that it may offer you. When someone says, "Just do it and don't take a lot of time" in the energy shifts of the present time the need to rush is almost as good as alarm system. Why must you rush? What is the hurry? Are you afraid that you will miss something? What are you missing by hurrying? The EGO operates in confusion and chaos. If that is what your life feels like, perhaps it is time to s-l-o-w down and see what is going on where you are, rather than worrying about what is going on where you are not. Spiritual multi-tasking is a part of spiritual evolution, it is available to everyone, however, it requires taking the time to discover how it operates in your own personal energy field.

As the world is changing the willingness to evolve with it is vital. The anger of lifetimes of unresolved and unfulfilled issues rises to the surface. Everyone is being challenged. How do you choose to view your life, your world? You are the creator and how you feel about your life is the deciding factor on what you will experience. Let the choices be made in Love.

Until we meet again, in the greatest of Love We are with you. I AM the Lord St. Germain
