### SPRING INTENSIVE

It is time to begin to consider our May Intensive. St. Germain is taking us to new levels of self-awareness all of the time. You have been the greatest mystery. It is time to discover your inner wisdom and enlightenment with "Finding the Joy of Greater Self-wisdom and Inner Knowing". The intensive will be May 17, 18 and 19, 2019.

As the paradigms are clearly changing and everything seems to be in some level of limbo, we are being directed to find the home base of Spirit within and feel the firm foundation of who we truly are. The world has defined us for life times and told us how limited we are, while holding the promise of greater good somewhere beyond the physical world. We are now being called to remember how to blend the best of our spiritual world and our physical world, so that we can live what we have searched for, for life times, here and now. Feel St. Germain's Love, compassion and wisdom as he gently and directly shows us what we have been waiting for, becoming the Spiritual Humans.

We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

### MARCH GROUP

The group will be on March 17 at 2 PM MT. St. Germain speaks about "It Is Not About THEM Until You Allow It to Be About You".

The blame game must stop and it cannot stop as long as humanity keeps looking outside of themselves for the flaws. Criticism, faultfinding and judgment solve nothing. There are so many words of blame that the air is as thick with the opposition as a battlefield is with

smoke. “I did not do that” has become the fifth amendment of life. Master not only does not make excuses, but seeks to live a life that sits so well with the inner self that there is no need to always be on the defensive. Hoping not to get caught does not make for a life of contentment. When the focus is on creating a positive life, it won't be perfect, but it can be expansive in Love.

CD's and MP3s can be purchased on the website at [Click Here for 2019 Groups](#)

## MARCH TEACHING

St. Germain continues The Pathway to Personal Growth Leads Inward with “Spiritual Intimacy Requires Involvement”. People dream of perfect relationships and then are so disappointed when the other person is not what they expected. Rather than complaining about how the other person falls short of perfection, LET GO OF PERFECTION! Enjoy others for who they are. Appreciate their uniqueness and be amazed at the delightful person that can emerge when they are not buried under criticism. When you put yourself in the relationship rather than just being a watcher, you get so much more out of the involvement with others.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST.

The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

## ASTROLOGY

### NEW MOON in PISCES—March 6

The New Moon in Pisces is conjunct Neptune, Ruler of Pisces, as well as Vesta. As the brightest of the asteroids, it is the flame that burns in the heart of every human. Without this connection to the Divine within we would not feel the power of creativity or the necessary energy to bring about the life we desire. If we do not feel the power, it is not because the fire does not burn, but that we have shut down the acceptance that it exists for us. This inspires self-confidence and gives us the passion to move forward toward the goals that we desire to accomplish. This New Moon present the opportunity to connect deeper with the heart and Soul centers and to recognize the feeling of connecting with both seen and unseen.

The dreams that come from this power linkage between the Sun, Moon and Neptune conjunction can be revealing, uplifting and informative. This union brings glimpses of the futures that are possible. “Nothing is chipped in stone”. One issue that people have with prediction is that the logical mind I so literal that it dares not see greater good, most of the time. It will interpret downward in order not to be disappointed.

The Sun, Moon, Neptune and Vesta are sextile Saturn which brings a wonderful grounding energy that assists us to enjoy the potentials without getting to far away from the connection within. This is an element of Spiritual multi-tasking that pays off as we remember how to use it. Take four parts creative essence and add a nice portion stability for an unbeatable mix of creative possibilities. This assures practicality without the dismal view that logic can take when it is taken too seriously. This configuration can provide the gateway to achieving some of our greatest dreams and exceeding the limits that the world seems to need to put on high aspirations. Saturn stresses that we stay grounded, but the intuitive elements can show us new ways to accomplish our goals in an “outside the box” manner.

Pluto is also sextile this configuration in Pisces. Pluto adds the power of manifestation to the mis. Capricorn is the sign that is connected to our success in the world. The old order has been all about following the

rules that lead us deeper into limitation and lack of vision. “What would they say?” has been the motto of patriarchal thinking. Pluto can play Devil’s Advocate or it can simply point the way to unexplored pathways. It is up to us to use our discernment. The combination of divine intervention and support from Saturn and Pluto calls us to hear the call of The More of life and rise to the occasion.

Change is the standard of Mastery. The fear of change holds powerful people in places of darkness and doubt. Change is inevitable. Refusing to take the next step just delays the accessibility to THE MORE. Faith says, “Walk to the edge of all the Light that you can see and take the next step.” That will reveal the Truth that the Light goes with you no matter what. Jupiter squares this whole grouping in Pisces including Mercury. Jupiter is about doing things in a big way, therefore, it requires consideration so that what is being brought to being does not get excessive. The mind has a tendency to think that if a little is good a whole lot more is even better. This is not necessarily so. Promises and apologies are tools of the EGO mind, that rushes into things and then just says “I ‘m sorry” as an after thought which means very little if anything. The finger of blame is all too ready to point out flaws in others in these times. Just remember the three fingers that are pointing back at self. The Jupiter and Neptune co-rulership over Pisces can help us to feel just how Loved and protected we are. The EGO is always wanting challenge that love and test it. “If I am this bad, will you still Love me?” The answer from the Divine is a resounding “YES”! Unconditional Love does not take sides.

### FULL MOON in LIBRA—March 20-21

This is the fifth Full Moon in a row that has fallen in the first degree of the sign it is in. This Full Moon in Libra also marks the Spring Equinox. The long night of winter is ending and there is “light at the end of the tunnel of cold and darkness”. This Full Moon in Libra also emphasizes that WE are a part of the WHOLE I AM consciousness. Aries always wants to charge ahead, while the Goddess energy of Libra calls “Wait, take the time to enjoy the shifts and changes”. Let us walk together sometimes, rather than getting so caught up in competition that we haven’t got time to get to know one another better. The preconceived notions of the past blind us to what the inner eye wants us to see. EACH ONE IS DIFFERENT AND UNIQUE

AND WE ARE ALL CONTRIBUTORS TO THE ONENESS IN OUR OWN INDIVIDUAL WAY. The Sun is conjunct Chiron, The Wounded Healer. We can become so caught up in defining ourself that we find ourselves alone and lonely. When there is the depth of inner knowing, “This is who I AM”, there is a willingness to own that knowing without defensiveness. The FOOL in the tarot deck is the Magickal Child that trusts, and in that acceptance allows greater things to happen because the vision is of the wonder of creation, rather than everything that could go wrong.

Venus, ruler of Libra, in Aquarius cojoined with the Black Moon Lillith. Venus has the ability to charm her way through situations and the Black Moon brings an element of rebellion, so we will more than likely, be seeing those in positions of power attempting move through opposition by using smoke and shadows to prevent people from seeing what they are really doing. This seems to be the current trend as Revelation is shining its light on everything and everyone. There really is “No hiding place” on Earth. We are being shown that fighting to stop others from doing what they are doing is not nearly as effective as changing our own perspective.

Venus, in Aquarius, and the Moon, in Libra, are both in air signs which draws attention to the true nature of trends. Venus may want to oppose the changes, while the Moon may desire to align with them. Trends are temporal, however with Mars in Taurus trine Saturn, Pluto and the South Node in Capricorn: Some actions that are being taken can lasting effects. The wisdom of these aspects is to listen within and not be dependent on the ideas and promises of others without having Faith in self. The EGO’s fear promotes quick action without consideration of the outcome. People in a hurry to push actions and ideas through, tend to overlook important pieces of information or even withhold them to give a certain impression that is not altogether clear.

Perhaps the most resounding message that can come from this Full Moon is that WE ARE NOT ALONE. As we take the time to feel within we discover that internal warmth that assures us that we are Love, special and important, even when we doubt it.

## QUOTES FOR THE MONTH

Fear and pain come from denial of your Soul. Tending and engaging your Soul releases fear and pain. --- Lazaris

Everyone can be a story teller. Be aware of the stories you tell, for in their telling you design your world. Pay attention to the energy that you put into your stories, so that you create a world of loving belonging. When you belong, it is an invitation for all to belong. --- St. Germain

Creation comes from Chaos. When you name the energy of Chaos it becomes what it is named. Order is brought forth. It is the naming that creates your world. How are you naming yourself, the people, things and conditions in your world? --- St. Germain

Let your Magical Child play in fields of imagination. Let your fantasies run free. Discover the wildness in imagination. With the blossom of creativity innovation comes into being. Give birth to creativity and innovation comes into being. --- Lazaris

## ST. GERMAIN'S MESSAGE

Dearly Beloved Masters, **OUT OF CHAOS COMES ORDER!** In the Beginning there was only Chaos; energy going everywhere without a name or direction. and **GOD** said, "Let there be light and there was." That was the first **WORD** of creation. We keep reminding you that you are creative **Masters** and you have the power to create through your words. So, Beloved Masters, what are you creating?

Listen to the stories that you tell about your life. You repeat them again and again. They become your law and the form in which your life is shaped. The **EGO** says, "But I am not God." However, you are a co-creator with **GOD** by Divine Design. You are powerful beyond your willingness to accept it. You can kill or heal. You can wound or mend. You can have a blessed life or fill it with curses. It is your Free Will to choose the way that you live. You can define yourself as a victim; feel how victimization feels as you own it as you. When you are using words, pay attention to how the energy of those words feels in your solar plexus, in your stomach. This is a year of Conscious Communication and as you take the time to recognize what you are creating by how the words that you speak impact you, you will begin to be aware that you do create your own life, your own reality or illusion and it is 100% within your realm of influence to have the life that you desire. Blaming others seems like the easy way out of difficult situations, but in reality it only causes more pain and limitation. Taking charge of your life and affairs is not bombarding others with how great you are. It is quietly living the authorship (authority) that is yours in your own life. When you argue it is an attempt to steal power (energy) from others. It is a temporary fix. Soon you begin to feel depleted and there must be continuous displays of conflict the attempt to hold power over others to keep refilling the limited energy that you feel. The **EGO** believes that it must get the energy to survive by taking it from others. If you are willing to feel within you will discover the amazing power that belongs to you; power that is unlimited when used wisely. Children develop survival skills when they are small and have no other means of survival, but to take energy from their parents if the parents do not share energy with them. Divine directive set the spirit of Love in motion so that children would draw the necessary energy to thrive and grow from their parents. When parents are preoccupied or too busy to take the time for the children then children use the Control Games that are discussed in the Celestine Prophecies to get the power to survive. When there is not enough love for the child to thrive, they develop the failure to thrive and quite often, children in orphanages die from a lack of love.

The Earth is involved in a massive power struggle for Love. There is more Love pouring into the essence of the planet than ever, but the awareness that something is missing is becoming clearer and the battles for energy, (gas, oil, fossil fuel), for power by domination, which is another ploy of the EGO to steal that life preserving essence of Love from others and wars over land, space and freedom are boiling over everywhere. The fear of “not enough” is generating weather patterns that are destroying land, global warming that is causing the waters (emotions) to reclaim the earth and the desperate need to get rid of people and situations that appear to limit freedom. When there is a crisis, “fight or flight” syndrome takes over and that affects the kidneys, adrenals, heart and liver which brings all manner of diseases that thrive on toxic waste in the body. The mind says, “I’VE GOT TO GET AWAY”. Where are you going to go? The ideas and fears that are generating the panic are coming from the mind, in its relentless need to be in control.

Your Spirit abides in the Soul Center of your energetic bodies. We describe the Heart, Solar Plexus and Splenic Chakras as the power center of the body, but it is truly energy. The changes within your energy bodies are allowing more and more Spirit into your consciousness. You have always been a spiritual being, however the shifts in frequency that are occurring for the Earth are bringing constant and often dramatic realizations within. Things that you have believed, things that you have been taught are being transmuted so that the fog of Illusion is clearing. You may have flashes of insight and new awareness that reveal a world beyond the limits of this physical plane. Neuro-pathways that have been disconnected for lifetimes are being restored and the outcome is a much clearer and deeper self-awareness than ever before. Many people will be startled or amazed by the new clarity. Others may be disturbed by the differences that they experience within themselves and attempt to shutdown or turn away from what is happening.

Since these changes are global, high-frequency and involve everyone on Earth they cannot be avoided by the logical mind’s attempt to make them go away. These changes are a part of where humanity is moving in the total evolution of the cosmos. The mind wants to just ignore what it does not understand. Change is inevitable. Humans have always wanted to make changes as slowly as possible in the hope that nothing will really be that different in their lifetime. The whole of the energetic patterns that govern the Earth are being translated into a new technological language that will allow a deeper understanding among all peoples.

Languages have been used to separate countries and people (the Babel affect), to keep “strangers” away, to allow secrets and judgments to made before those who do not speak the language so that they will “never know” what was spoken against them. These separations have been called protection or privacy, often because of the fear of the differences in people.

The new energies are offering opportunities for everyone to recognize the beauty of their own specialness within and therefore the beauty of the uniqueness of others. When the focus is on the discovery of ways to share and benefit each other the interdependence of Mastery begins to illuminate the inner world of all. There have always been beings who desire to create chaos rather than to use chaos to bring order. New levels of inner knowing allow the recognition of the requirement to be aligned with self, not in defensiveness of thought and mind, but in caring that brings the stronger protection of Love.

War will prove to use more and more energy to the point of exhaustion. The logic of war is showing just how costly the destruction is. To seek to destroy the lives of others set off a chain link reaction that influences minds who enjoy power above compassion. The cost of destruction is causing everyone, even those who might say, “It didn’t happen to me so it is not my problem” to recognize that all truly are one and when the many are affected the whole is required to respond. Whether the destruction is war or weather, no matter what country is directly influenced the financial, emotional and cultural impact is like a shock wave that rocks the whole world. Through the collective consciousness the mental and emotional climate of the planet is connected. There are many things that have been dismissed as unreal or untrue because logic could not explain them. Now those “mysteries” are beginning to be explained, not just by science, but by the changes that spiritual evolution is bringing to the fore.

What you create and who you are is important to the whole. The great, showy productions are dramatic, the ordinary, everyday actions of life lived in consideration of the preciousness of life are the things that will endure and sustain the whole in the ongoing. And so Beloved Masters, We are delighted and intrigued. We are touched and heartened. We see all that is occurring and understand how difficult it is to take in that no matter how things look, if you are willing, life is getting better. In the greatest of Love, We are with you. I remain your humble servant. I AM the Lord St. Germain
