Spring Intensive

It is time to include our May Intensive in your spring plans. St. Germain is taking us to new levels of self-awareness all of the time. You have been the greatest mystery. It is time to discover your inner wisdom and enlightenment with “Finding the Joy of Greater Self-wisdom and Inner Knowing”. The intensive will be May 17, 18 and 19, 2019.

As the paradigms are clearly changing and everything seems to be in some level of limbo, we are being directed to find the home base of Spirit within and feel the firm foundation we have, while holding the promise of greater good somewhere beyond the physical world. We are now being called to remember how to blend the best of our spiritual world and our physical world, so that we can live what we have searched for, for life times, here and now. Feel St. Germain’s Love, compassion and wisdom as he gently and directly shows us what we have been waiting for, to live as Spiritual Humans.

We invite you to join us in person. Call or email Molly for more information.

CDs and MP3s will be available.

The May group will be May 26, 2019 at 2PM. St. Germain will talk about “You Don’t See Until You Are Ready”. People ask all of the time, “Why don’t I already know about the Mysteries, the Spiritual World, metaphysics, Divine Law?” St. Germain replies “You don’t see the next level of awareness or experience new dimensions until you reach a point where you allow the shifts and changes necessary for the Inner eyes to see”. There is much talk and focus on the Third Eye which is connected to the Soul Center and when the Third Eye will open. The Third Eye is open, but there is still the necessity to look at life from a new perspective and accept a different view than has been available before. Wanting to look through new eyes and see the same old world is a limitation of the EGO Mind.

CD’s or MP3s can be purchased on the website at [Click Here for 2019 Groups](#)

St. Germain brings the May Teaching “The Inward Path is Not Intellectual”. on Wednesday evening, May 8th, 7PM MDT. The mind wants to learn “how, what, when, why and where” and then do the “right

thing” in order to get these mental aspects to work. Spirit embraces the mind, but functions in REAL TIME, rather than concepts, theories and ideologies. Living your experiences is the best way to understand the way life truly operates. To feel the energy as you use it, to recognize what happens as you make your Masterful choices, to be in touch with the outcome of your actions so that, in the future, you make wiser choices is vital to the shifts that are occurring now.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST. The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven’t had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

ASTROLOGY

TAURUS NEW MOON - MAY 4

This New Moon in Taurus is sextile Neptune in Pisces, bringing the soothing touch of intuition to the earthy riches of Taurian bounty. Things grow so much more bountifully when there is water, the Neptunian essence enriches our dreams and our manifestations.

Taurus is about security and feeling a sense of belonging to the Earth Mother. This New Moon puts us in touch with the natural resources of the Earth and our own rich blessings of creative essence. Take the time to feel the abundance of love and good gifts of life at this time. The security factor calls us to truly consider where we are putting our focus when we call "rich" into our lives. Is the focus on wanting what we do not have, or is it on allowing that which is ours to show up in our life? The willing receptivity opens the way of the abundance of all of life to flow freely to us.

Taurus provides the firm foundation that is required for us to anchor our dreams so that they may manifest. Intension is imperative to strong outcomes. To trust that we are provided with all that is required, both internally and externally, for us to bring our life to whole new levels of fulfillment. Since this New Moon is trine to the South Node and Saturn, we can utilize talents of long-standing in our creations. Interaction with authority can be pleasant and sustaining. Finding a mentor or those with greater wisdom about the circumstances we are creating, can be an extra bonus. The "feet on the ground" energy of this Taurus/Capricorn trine allows us to trust the outcomes of what we are setting in motion, as well as positive manifestation of things that have been in the works for a while. Things may seem to come about with the greatest of ease under the trines and sextile of this New Moon. The EGO could worry about things being too easy, but life creates its own balance. When we forgive attempting to control the energy of life, everything can happen in its own time. The EGO worries if things do not happen fast enough, and then it worries if they happen too fast. This is a very good time to feel and allow personal trust and let outcomes move into place in the divinely appropriate timing. Your are energetically supported to practice allowing safely. Life is a school and if we are willing to learn, rather believe that we should already know it all, life provides loving and worthy lessons. If we need to do things the hard way life will comply, but under current

aspects there is a grander safety net in creating ease in our lives.

The energies of the planetary aspects can produce emotional overwhelm. The grounding of Taurus earth energy can help us to stay centered and remain objective, rather than taking life too personally. Since Taurus is about security, this is a good time to examine where in the life there are places where the essences feel unsteady or vulnerable. This can be physical or emotional/spiritual areas. We are beginning to realize that all of the fences, walls, locks or security devices in the world will not provide safety if we focus on being unsafe. **SECURITY IS AN INSIDE, AS WELL AS, AN OUTSIDE PROCESS.** We Talk about having FAITH, but when crisis occurs we are quick to blame God or higher power. The planet Venus, which is the depositor of the Moon in Taurus, is trine Jupiter in Sagittarius and this is a powerful support system for strengthening our faith. Faith is often said to be the opposite of doubt. It can also be the antidote for fear. Jupiter in Sagittarius is a powerful ally, as the Archer's focus is on the essence of enlightenment, where fear and doubt keep us in the dark.

This New Moon brings us an opportunity to take in a deep breath and experience some easement from the constant tension that has been occurring all over the planet.

SCORPIO FULL MOON - MAY 18

The Full Moon in Scorpio opens the inner pathways to help us explore the mysterious worlds and deep places of personal connection within us. Scorpio is all about the hidden aspects of life and the wonderful enlightenment that exists within us. The logical mind has a fear of what it cannot see, understand in the moment or control. This Full Moon brings assistance in discovering that there is a whole new world that is inside of us; a world that holds vast knowledge and wisdom that is not available in the outside world. Humanity has suffered from the abuse of information withheld by secrets. As we come to know ourselves within, we find deep assurance that who and what we are is really magnificent and what we have disliked about ourself is more illusion than truth. Finding the inner you is the most powerful adventure that anyone can have. Emotional intensity can be transformed to supportive feeling in the inner places.

The Sun and Mercury are trine Pluto in Capricorn and the Moon opposes the sun and Mercury to sextile

Pluto. The Plutonian energy can bring a sense that there are secrets afoot. Beware of allowing paranoia to take hold. Give things time to reveal themselves and the picture may be very different from the appearance. **NOTHING, IN THESE TIMES, IS EXACTLY AS IT APPEARS—NOTHING.** Discretion and being present mentally and emotionally can allow the discovery of what is really happening, rather than reacting, only to find that the assumption was incorrect.

This is a good time to ferret out information that has been kept buried and what has been hidden in the dark can be brought to the light. Point of interest: When the revelation comes about, more may be revealed than was considered. Revelation is shining its light everywhere, and the desire to bring out just enough information to make things appear one way, can lead to disclosure and uncovering what may have been withheld, that will change the whole perspective.

Since Mercury is *via combusta* the Sun, which means that it is within 4 degrees of conjunction, it is well to take things with a “grain of salt”, as the “Ain’t nothin’ what it seems” clause, brings distortion and miscommunication easily. The *via combusta* element can bring explosive emotions and misunderstandings, that if taken seriously, can continue to create challenges after these aspects have passed.

Scorpio is very resourceful and is known for its ability to create what it desires. Scorpio’s have an innate sense of old magik and are powerful manifesters. Moon-Pluto aspects can often bring about power issues and even though this aspect is sextile, we can achieve an outcome that is most beneficial by integrity in our choices. Things that come to light may be much less impressive than the mind may have thought.

With Mars, the co-dispositor of the Moon, in its fall in Cancer, getting an idea across may seem to be hampered by a “loss of words”. The inability to make things clear can take the power out of the situation for the time being. It is to pay attention; when you don’t have anything to say, **SAY NOTHING.** What is put in motion under this Full Moon can have lasting effects. Make sure that they are what was intended.

ST. GERMAIN'S MESSAGE

Greetings, Beloved Masters! We speak to you in this time about the inner pathway, which is a portal to the inner dimensional Self. The inner places are filled with a sense of peace and empowerment that is rarely found in the outer world. Good in the world is more often than not, considered in connection with an event of kindness and/or heroism. With the inner connection that feeling of good is pervasive and you can feel the conscious awareness of your own value, not as a measure of superiority, but simply as an atmosphere of well-being that is consistent. The collective consciousness is buzzing with judgment and mistrust that disallow a great majority of humanity to recognize how wonderful, powerful and amazing each individual is. Access to the inner self brings a climate of acceptance that heals the wounds of separation and opens a consistent connection to faith, trust, truth without doubt, compassionate objectivity and awareness of the virtues in a much clearer definition. Humanity keeps looking out into the world to find these elements of life that bring peace and harmony, but the outer world is focused on war, conflict, fear and mistrust. The EGO mind constantly is pushing images of chaos, disaster and suffering before the population of earth to keep people believing that that is all there is. There are the offerings of escape to other planets, but there are no clear offerings of an improved life when one arrives.

As the connection to the inner realms is made it opens the way to a world where love is real and dependable, because it begins within and that changes everything. The physical world looks outside of self to gain things that are perceived as unavailable or inaccessible. The outer world's motto is "not enough, not enough". The standard of the inner world is "there is plenty and plenty more where that came from". The inner connection isn't about leaving everything that you have known to "go" somewhere else. The inner connection allows each person to see the outer world through new

eyes. When the filters of limitation and distortions of Truth are transmuted the world looks and feels totally different. When the fear of change becomes the delight of renewal, each new experience is viewed as an opportunity for greater growth and expansion. The EGO mind keeps the world in dread and emphasizes the necessity to "hunker down and keep a low profile *until the bad stuff passes*". Divine law is, that wherever an individual places their attention and/or holds their focus is how their own personal life will be. When groups of people gather together to hold an idea it magnifies the strength of the focus. Hatred is the antithesis of Love, so anger, fear and destructive intentions hold Love away. Hate cannot destroy Love anymore than Love can destroy hate. However, when there is the willingness to feel the Love connected to the inner self, the whole of the life begins to move into more positive places on all levels of the life.

The World is full of fights to get what is perceived to be withheld or get rid of what is perceived to be unacceptable. The mind attempts to create the Illusion that sweeping statements against race, religions, gender or color are not all inclusive: I have friends that are "_____" (fill in the blanks), so when I say hurtful things about people I don't mean you or them, is an EGOIC attempt to smooth over cruelty. When there is sarcasm, bitterness, anger and fear there is a well of those emotions brewing inside of the individual. In the past, putting a smile on one's face was supposed to *prove* that they were only "joking" or "really didn't mean the affront, but facial expression and tone of voice belied the illusion. Now, as people are becoming more sensitive to the energy, there is a deeper recognition of Truth and the facades of the past no longer serve to mask intentional cruelty. Revelation is bringing the very best and the very worst to the light of clarity.

As you begin to feel the power of Love within it changes your perspective of yourself because you can connect with your own specialness and beauty, which enhances your ability to see the best in ALL others. Call a ball of white light into your inner vision. You may hold your hands, palms facing, about six inches apart and envision the ball of light between your hands. Move your hands, as though you are holding a physical ball. You may squeeze the ball or bounce it back and forth between your hands and feel the warmth and light growing as you see the energy brightening. Now, make the motion of putting the ball of light into your solar plexus and feel, Feel the energy pulsing in your Soul center. Visualization is a part of creation, but the most important part is the feeling. As you feel the energy of the ball of light more

powerfully, allow that energy to move up into your head, out your arms, into your hands and out your fingertips. Also, allow the energy to flow down through your hips and legs, ankles and feet and out the tips of your toes. This imbues the whole of your physical body and all of your energy bodies to be cleansed, enlightened and clarified. In that new state of clear vision and inner harmony, the ability to really see the Earth plane from a different awareness changes, not only what you see and how, but brings a new life force to your involvement in affairs of an earthly nature. Many people say that they feel heavy. When there is an accumulation of old worries, doubts, fears and judgments the weight of stuck energy begins to be felt as a physical burden. Using the cleansing meditation is a bit like a spiritual shower to wash away the negative vibrations and bring a tingle to your whole self.

The EGO says, “How do I avoid all of that negativity?” The EGO uses running away or escape as a method of shutting self off from the world. “I’ve got to get away from all of this”, doesn’t change anything, actually. The belief that “if I just go somewhere else” I don’t have to be a part of what is happening or be responsible for my participation. So, let’s go back, for a moment, to the consideration that feelings and or emotions are a primary part of all creation. The desire to run away does not change what is going on inside of you. When the “escape” is made all of the fears and clutter is within goes with you. The only way to heal is to change how you feel about yourself, life, other people. The constant going over and over and over what others are doing to you just becomes a daily, often momentary power give away. They can not use your power and you cannot live without it. Yet the speaking of negative affirmations just constantly adds energy to what you DO NOT want. Emotions, more often than not, tend to dwell on negative subject matter. Feelings are a higher octave of emotions and tend to draw the focus and energy into higher, more positive levels of being. **NO ONE ELSE MAKES YOU NEGATIVE!!! YOUR REACTION TO THEM CAUSES NEGATIVITY.** The EGO says, “You must make them change” for your own mental health. **DIVINE LAW IS NOT ABOUT CHANGING OR RECREATING OTHERS. DIVINE LAW IS ABOUT HOW YOU, PERSONALLY, CREATE THE WORLD THAT IS WITHIN YOUR REALM OF CREATION.** As you focus on what is wrong with them it builds a bigger and bigger pool of negative energy within you. The more you dwell on negative actions, ideas and concepts the greater the ball of darkness grows within. **CANCER IS A DISEASE OF WHAT IS “EATING” YOU.** Cancer is inspired and reinforced

by constant criticism, negative judgment, resentment and the misery of being alone, because that energy builds walls of anger that shut everyone out. The old law, “I have to do this all by myself” makes isolation and the refusal to let love in creates disease.

All of the fighting in the world will not bring justice, happiness, a rich life or well-being because war is always focused on righting a perceived wrong, which keeps the focus on what is not wanted rather than what is truly desired. An excellent example has just emerged in France, where the ancient temple of Nostra Domus burned. People in the private sector donated money to rebuild the temple and the “general public” who, by the way, do not want their own Free Will interfered with, have stepped up to shout “What about me? What about our **LACK OF MONEY?** Why don’t these people give the money to us?” Because, Dearly Beloved Masters, if that were your money, you would believe that you have the complete right to spend it as you chose and that right extend to all others. The EGO shouts, “But they have so much.” The Divine Truth is energy is unlimited. Money is energy. As the willingness to accept that Divine Law applies to all, the ability to be Rich is available to all. Each person has a Divine Free Will to chose how to use that energy. Some people focus on the accumulation of wealth. Others put their energies on resenting the wealthy. **IT ISN’T WHAT LIFE BRINGS YOU, BUT PERSONAL CHOICE THAT MAKES YOUR LIFE FUNCTION AS IT DOES.** That is not cruel or inhumane. Those Laws were instated before humans were created. Divine Law is unconditional. Human law is easily swayed by emotional judgment.

REVELATION is calling everyone on Earth to balance. Balance is not a set of scales that is placed so that a few may put their finger on the scale to make the balance be in their favor. The lie of the Illusion that only a few deserve to prosper is coming into a clear place so that all may, if they are willing, understand that energy is used to create. All energy comes from Divine Source and that energy is neutral. There is no “God’s energy for the good people” and “the essence of Evil” for bad people. In the sight of the Divine good and bad, as measures of judgment, do not exist.

As Divine, Beloved, Co-Creators with God each individual has more power than they could, possibly comprehend. The abuse of power in the world has a price called Karma. Karma is a law of balance. When things in the energy, in the mind, in the life begin to become distorted by greed and avarice Karma simply

moves the energy into a place where the highest and best outcomes for all are available. There are those who enjoy the imbalances and seek to purvey the idea that lack is a punishment for negative behavior. EGO tends to take Divine Law and distort it just a bit, so that there is still a little truth, but much more is Illusion. Negative Behavior is its own reward. Those who chose to live by the laws of Illusion will create their own discomfort and often seek to make it appear that they are victims to some injustice of the world.

We have observed this game of lifetimes and Revelation is bringing new paradigms that are shifting the world view and calling each individual to make personal choices for their own ongoing. **NO ONE HAS THE DIVINE RIGHT TO FORCE OTHERS TO COMPLY WITH THEIR CHOICES BECAUSE FREE WILL REQUIRES THAT EACH ONE LIVE IN THE BLESSING OF UNCONDITIONAL LOVE AND THE RIGHT OF CHOICE ON A HIGHER LEVEL OF BEINGNESS.** Divine Law applies here on Earth as well as in the cosmos. Humans may fight for their right to live less, but Divine Law is calling all to live up to their highest and best NOW. The changes begin within and start with you. As you change you will witness the world you live in changing. If it seems to be getting worse, check to feel “Where is your focus?” No human is exempt from Divine Law, even if they believe that they are “getting away with untold folly” on Earth. God does not punish, but when the belief is that if I get what I want no matter what, God is on my *side*, when things change, often the cry is God has abandoned me. God is always with each one, in Love, no matter the actions. Divine Law keeps the balance and it cannot be swayed by EGO’s guile.

So, Dearly Beloved Masters, We are with you in all times to assist as you are willing to shift and change the old earth views to new, more sublime visions. We cannot override your Free Will, so when the EGO cries, “Why doesn’t God hear my prayer?”, the question may really be, “Have you been willing to hear the answer?” In the greatest of Love, I bid you Adieu!
