

October Newsletter

Everything is changing so fast. We have noticed that technology and electronics are being affected more intensely all of the time. Some are small changes and others are quite dramatic. Suddenly, about two weeks ago my Kindle stopped acknowledging our wi-fi here at our home. Then the computer stopped recognizing either one of our printers—one was wi-fi and one was not. After we noticed other devices were not working, I called a computer tech and it was as simple as unplugging the computer completely for thirty seconds and plugging it back in. As I talked to other people I knew about the malfunction the stories of technology problems were plentiful. St. Germain suggests that human technology is changing even faster than, electronics. He says that if you get tests done medically, by the time the results come back, quite often you are not even the same person, cellularly, that you were when the tests were made.

These are fascinating times and it is intriguing to live now.

New Moon in Virgo Aug 30th. St. Germain give wonderful information each month in the rituals—Full Moon and New Moon. If you would like to receive the mp3s the these rituals let me know and I will put you on our list. The rituals are shared free of charge.

By signing up for the Personal Growth package you get a one hour session each month with St. Germain plus the Teachings and Q&A each month.

Fall Intensive

It is time to begin to consider our **Fall Intensive—Energy and Creation; How You as a Master Use Them. The Intensive will be held here in the beautiful Lander Valley of Wyoming on November 8, 9 and 10th.**

St. Germain continues to further our spiritual growth with new information and understanding that assists us to make the deeper and more conscious connection to our inner Self. We are energy creators with every word, thought and deed. St. Germain demonstrates how this is becoming the way of designing our world and that *unconscious* creation leads to unexpected and often unfortunate outcomes. We have lived in an unconscious state due to the Illusion that

the EGO Mind has used to gain control over humanity. We have used control to diminish ourselves and others. As we remember our divine ability to create in Love and compassion our use of the energy of creation changes.

IMAGINE A WORLD WHERE WE SUPPORT ONE ANOTHER, SHARE THE TRUTH OF OURSELVES WITHOUT SHAME AND GUILT AND LIVE IN A CONSCIOUS AWARENESS THAT WE ARE REALLY RICH, HEALTHY AND COMPASIONATELY LOVED AND LOVING.

We invite you to join us in person. Call or email Molly for more information.

CDs and MP3s will be available.

The October group is **Everything About You Is Valuable**. The group will be on October 20 at 2 P.M. Even the things that the EGO worries about, the things that you are not sure of, all have value because they give you opportunities to make choices. The EGO does not like to choose because it might be wrong. Using your Free Will aligns you with your own personal power and strengthens your ability to trust yourself. **YOU ARE VALUABLE!**

CD's or MP3s can be purchased on the website at

St. Germain brings the October Teaching: The 95% of Self You Have Not Owned on Wednesday, October 9. Science has said that humanity only utilizes about 10% of their mind. We would suggest that it is the 90% of the body brain that is not employed and that makes a huge difference in what anyone can accomplish in life.

As you make use of more of the gifts of creation, that you have been blessed with, an amazing life unfolds right where you were sure there was nothing .

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST.

The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

ASTROLOGY

ARIES FULL MOON—October 13-14

The Full Moon brings things that have been gestating within to conscious awareness. The Aries Moon is filled with energy and impatience. The tendency for unpleasant judgments to bubble to the surface is all too easy. Mars, the ruler of Aries is in Libra, the sign of its fall, and Libra's nature of peacemaker can tend to fuel Aries fiery nature to react even quicker. The Sun in Libra calls for beauty and harmony in a world where the focus is more directed to war every day. Libra desires peace and Aries impatience can look to get things done any way possible.

Saturn and Pluto in Capricorn form a T-square with the Sun and Moon to continue to change the perspective and shift the consciousness around both personal and global relationships. Capricorn is the sign that rules the patriarchal order. The ending of a way of life that has been in place for centuries is causing all manner of relational issues to present themselves in daily life and affairs. Everything appears to be in progressively more chaos and the need to get things done quickly vs. wait and see attitudes just brings many pots to a boil. Saturn can cause procrastination because it wants to weigh all of the angles and ideas before taking a step. Pluto, in the meantime, is transforming old ways and often making shambles out of the carefully laid plans that Saturn strives for: Will there be an impeachment? What about gun control? When will the attempts to keep things as they have been begin to change into the 21st century? Will global

unrest continue to accelerate? Will humanity realize that what is going on, on the inside influences what happens in the world? All of the very personal questions can be answered within, but it won't happen by trying to find the answers outside first.

Jupiter in Sagittarius (the home of connection with the Divine) is squaring Neptune in Pisces. Each planet is in the sign that it rules which strengthens the influences. Neptune taps into the deepest of inner knowing and sharpens the intuitive awareness. It can, on the down side bring delusions to the fore. Irrational thinking and distortions in perception can be expanded by the Jupiter influence. On the high side this configuration can bring new realizations of Truth, clarity and feelings of connection to higher consciousness as never before.

Uranus continues to move retrograde and opposes Venus and Mercury in Scorpio. This can create relational changes that seem to come out of nowhere or arguments that may seem important in the moment, but are revealed as senseless when the "dust settles". There can be dramatic and unexpected internal shifts that reveal new perspectives and causes changes that release old beliefs and brings new levels of understanding and awareness.

Between the Jupiter/Neptune square and the Uranus opposing Mercury there can be even more revelations concerning the Supreme Court and the Presidential impeachment proceedings. Something new emerging every day can become the norm rather than the exception. The

pressure to get moving on issues that have been on hold for months or even years will not let up, from the earthly or higher realms.

SCORPIO NEW MOON—October 28

This New Moon falls three days before Halloween. This deepens the intensity of the inner journey that each New Moon calls for. The New Moon in Libra delved into the deeper aspects of all manner of relationships and the New Moon in Scorpio will draw our attention into the depths of ourself to find the wisdom and spiritual connections that we may have been overlooking or avoiding. There, truly, is no hiding place here on Earth.

This New Moon occurs with only one retrograde planet left of the five retrogrades in August. The retrograde planets are a bit like a time out from the intensity of the direct motion each planet brings. Retrogrades give us a chance to catch our breath and take a second look or closer view at what we may have taken for granted. When life gets intense the EGO mind tends to want to ignore what it cannot immediately grasp, put in a box or get into control. Uranus is in opposition of the Sun and Moon in Scorpio and that brings quirks that the EGO mind may not be able to meet head on. There is the necessity to consider that the direct approach is not always the way to get the most information. Sarcasm, accusations and bitter judgments will certainly not bring about the most positive of outcomes in these trying times, when pride and prejudice make many people overly sensitive.

Mars in Libra squares Saturn and Pluto in Capricorn and this can intensify the tensions between the ultraconservative and the liberal minded. The polarities are bringing such extreme oppositions that the divisions will begin to close on the other side of the divide. There will begin to emerge the awareness that when ideas appear to be so diverse the concepts are beginning to intermingle. Whether personal conflicts or global, each “side” is required to surrender the need to be right and seek the desire to be peaceful, cooperative and look for the greater good rather than just the fulfillment of personal gains. The North Node in Cancer squares Mars and opposes Saturn. The Cancer North Node carries a lot of pride brought in to this lifetime from times when the ego sat in positions of power. Much of the present-day battles are simply karmic settlements of imbalances created in other lifetimes. Spirit is not concerned with who is right, nearly so much as keeping the Divine balance in the natural world. All of the wars tend to upset the harmony of nature and that brings outcomes that the logical mind tends to want to overlook or change by force. The old order has been about achievement of success at any cost. The very spirit of the planet is being threatened by the lack of cooperation and compassion.

The Jupiter/Neptune square is requiring attention to higher consciousness, ethics and changing the tendency to overlook to the ability to oversee. The desire to cling to fairy tales and want life to be easy, when everything that humanity has been taught about accomplishment is “how hard it is to get what you want”, must now be dealt with

clearly and honestly. Life is never “just one way”. An amazing part of being human is learning to respect, appreciate and love diversity, rather than fight to maintain limitations.

The cosmos is doing a full court press astrologically. With each week, month, New Moon, Full Moon the energies are increasing. It is not to break us, but to open us up. Resistance is not so much a show of strength as it is a refusal to grow. Change is an indication that there is still life. Holding on to limitations is like smothering the lifeforce and bring a slow death to why this wonderful planet was created. It is up to each one of us, not to stop others, but to move along our own journey with joy and conviction. It isn't what life brings us, but how we are with it that makes the greatest difference.

QUOTES FOR THE MONTH from St. Germain

Your personal power is precious, a sacred part of all that you are. Live it lovingly. – St. Germain

The only way to change in the future is to change NOW! -- Lazaris

To heal what was, is not to go back and attempt to change it. It is to move forward with a desire to recreate in new, beautiful and inclusive ways. -- St. Germain

ST. GERMAIN'S MESSAGE

Beloved Masters,

You are experiencing the changing of an Age and Revelation. Many ages have come and gone, but never has there been a shift such as this. The paradigms are shifting to accommodate a whole new potential for humanity. Humans have never embraced change quickly and yet the technology of these times is calling for movement in ways that have never occurred before. The old order is still attempting to make feeble changes in things that are no longer important and necessary and delaying making changes that can impact the future of all people.

In the chaos of the times, people are being brought together in the midst of crisis to

become more acquainted with interdependence, rather than victim consciousness. One of the most important points of awareness in all of the chaotic changes is that humans are amazingly strong and resilient. The desire for life and the ability to overcome are truly uplifting. Those of us who are assisting the Earth are encouraged and impressed by the power of each being to make changes when they must. It is vital that all people make an effort to keep their thoughts focused on a greater FAITH in what may have been considered, up to now, impossible to sustain.

Flexibility and willingness to find love and joy in the midst of challenges is both powerful and necessary. When a multitude of people are impacted by events, no two people respond exactly the same way. There is no *right way* to respond and surely when there is immediate necessity to attend to the situation at hand, it is not the time to judge how people in crisis or those who are assisting go about offering help. Unfortunately, when people are not in a position to protect their property and goods there are those who will contribute to the discomfort by taking what is not theirs to take. As the Illusion has become denser, many people have hardened their hearts and decided that they have a *right* to take from others without conscience. The understanding of Divine Law has been pushed aside until the realization that abuse of energy is not excused by ignorance. As any Human Being is a Divine Master, whether they believe it or accept it, the Law of Creation applies to ALL.

Taking what does not belong to you, is not excused by “They wouldn’t share” or “they aren’t going to need it, anyway”. Karma brings balance in Divine time. Many things that are occurring now are bringing balance to imbalances that have existed for lifetimes. It is not about attempting to decide whether those involved deserved what they received for better or worse, because there is no one on Earth who is so pure that they could judge and if they truly were that aligned, they would not be focused on judgment of others.

We keep pointing out that change is in the hands of each individual. It is not about forcing others to change. It is about getting clear within self that change begins within and reflects into the world, not the other way around. People can spend massive amount of time and energy in fighting to get what they think they want only to be disappointed that nothing seems to be what they thought it would “look like”. Many change their minds more often than they change their clothes. Therefore, by the time what they believed they wanted arrives they don’t want that any longer.

Patience is a necessary part of new beginnings. It is easy to say “I don’t like something”, but when confronted with the question, “What do you really want?” many cannot answer. They know what they don’t want, but have no clear idea or offering of what would improve their “personal world” conditions. Many people would fight to have guns for protection. Hand guns can offer the necessary defense, but no citizen, on the street, requires a semi-automatic weapon. **NO ONE!!!** When death is the focus, the idea of protection vanishes. **HATE AND**

LOVE cannot occupy the same space. **WAR AND PEACE** are mutually exclusive. Despite the belief that fighting can bring peace it never creates a peaceful cooperation in ways that are sustainable. This is not the rhetoric of logic, but Divine Law. When the time is taken to feel into the essence of these statements there is a dynamic difference in the energy of the opposing words, thoughts and ideas. Peace is not found in taking sides for battle. The focus on the potential fight, stirs the **EGO** mind to plan battle strategy and the whole essence of peace begins to disappear.

As each person would be willing to **LIVE POSITIVELY** the basic design of life would be more and more about facilitating the ability to live well for all. The concept that only a few are destined to use the many as slaves has no foundations in any Spiritual creation. To be of service is a gift that Masters embrace. To be of service is not about being a servant or slave. It is a willingness to live according to how creation was set in motion in the beginning. Jesus was serving those that he honored when he washed the feet of his disciples. He was judged to be setting a bad example by those who held themselves in positions of society that were above stooping so low and to offer to nurture others, especially those beneath them. There were the few who recognized the love and compassion expressed to the men who the Master considered, in many ways to be brothers is spirit.

Each Soul on Earth is a God created being. How they choose to express their free will, can bring sadness or delight. The Golden Rule is not passe’. It says, **“Do unto others as you would have them do**

unto you". So many have changed the intension to "Do unto others as they do unto you" and used it as a justification to be abusive, cruel and hard-hearted. This interpretation denies the requirement to live in integrity, honesty and faithfulness.

Dearly Beloved Masters, each being is at a point of choice. Will you remember the wonderous Soul that God created you to be so very long ago or will you make the choice to follow the ways of the world in these times.

You are Loved beyond imagining. We are with the Earth and all of her people. We will assist where we can. It is not allowed for Masters to step in and take over the lives of others. That has nothing to do with Divine Law. We joyously help when it is accepted and hold powerful intensions that all will have a change of heart and mind to allow Soulful acceptance of the new becoming. I remain you most humble servant. I AM the Lord St. Germain
